Soviet Reverses Cause Rioting in City of Petrograd

Berlin and Copenhagen Reports Indicate Serious Anti-Bolshevik Feeling; Riots Said to Have Assumed Proportions of Counter Revolution.

London, Sept. 14.—Serious anti-Bolshevik rioting is taking place in Petrograd, it is declared in reports from that city received in Berlin, says a dispatch to the Exchange Telegraph Company from the German capital, filed yesterday.

Paris, Sept. 14.—Rioting took place in Petrograd when news of the Soviet military defeats reached there, according to a report which the French Foreign Ministry has received through Copenhagen. The rioting, the report declared, assumed the proportions of a counter-revolution and many of the commissioners were killed. At the Foreign Office it was said credit was given the Copenhagen dispatch, except for one portion of it which declared the Soviet fleet had mutinied and fired on Kronstadt.

On Taurida Front.
Sebastopol, Sept. 14.—(Associated Press).—Troops commanded by General Wrangel, on the Taurida front, northwest of the Sea of Azov, have surprised and captured, near Polugul, in the Orlovsk region, the 12th Bolshevik Brigade, including its staff and trains, according to reports from this city.

Soviet forces on this front are now on the defensive and appear to have become exhausted as the result of the offensive campaign in Poland. Officers find it more difficult to arouse sentiment against General Wrangel's army than against the Polish, although the former has made heavy captures in men and material.

The expedition sent into Kuban, southeast of the Sea of Azov, by General Wrangel seems to be a failure both on a military and political view.

Kamenoff at Bergen.
Christiania, Sept. 14.—M. Kamenoff, head of the Russian Bolshevik trade mission in London who left England a few days ago, has arrived in Bergen. He has been authorized to stay three days in Norway and will come to this city for a conference with Maxin Litvinoff, Bolshevik assistant-commissioner for Foreign Affairs.

Break in Negotiations.
Paris, Sept. 14.—Before leaving London, M. Kamenoff, head of the Russian Bolshevik trade mission, has said to have written to several members of the British Parliament declaring that statements made by Premier Lloyd George on the occasion of his departure had brought about a break in Russo-British negotiations. A dispatch from London says M. Kamenoff protested against the Premier's declarations, accusing Lloyd George of having "constantly worked to bring about failure of the Anglo-Russian negotiations."

Reported Offensive.
London, Sept. 14.—The Russian soviet forces, it is reported from Moscow, have taken the offensive on both sides of Brody, near the old Galician border, and are marching on Lemberg, according to an Exchange Telegraph dispatch from Berlin dated Monday.

The Poles and Ukrainian troops, it is declared, have been driven back by the Russian cavalry.

MINISTER IN NEW BRUNSWICK RESIGNS

Hon. Dr. F. A. Smith, Minister of Lands, Has Resigned Portfolio

St. John, N. B., Sept. 14.—Hon. Dr. F. A. Smith, Minister of Lands and Mines in the New Brunswick Government, has resigned his portfolio.

For several weeks rumors of disension in the New Brunswick Government have been in circulation. Hon. Dr. Smith, it has been stated, disagreed with his colleagues about the amount of stumpage dues to be collected and the location of a provincial game reserve.

To-day before the announcement of Mr. Smith's resignation was made it was believed that the whole Government might resign after a general election held.

QUEENSLAND SECURES A TEMPORARY LOAN

London, Sept. 14.—(Canadian Associated Press).—The Government of Queensland, Australia, has negotiated a temporary loan with the Bank of England for £1,900,000, Premier Theodore states, according to a message received to-day by the Morning Post. It probably will be used to pay interest in London on current issues. Some readjustments and remissions of taxation are expected in the federal budget and much additional revenue is accruing from the new tariff.

NEW AIR MAIL ROUTES

Washington, Sept. 14.—Contracts for three new air mail routes at a total cost of \$855,000 a year were awarded to-day by the post-office department to the Lawson Airline Company, of Chicago.

PROPOSALS TO END IRISH DISPUTE

Secret Negotiations on Basis of Self-Government Within Empire Is Report

Death of MacSwiney May Nullify Plans, Says Dublin Correspondent

London, Sept. 14.—Negotiations for the settlement of the Irish question, which are described as the most promising as yet initiated, will be nullified, if Terence MacSwiney, Lord Mayor of Cork, died in Britain prison, where he is continuing his hunger strike, says the Dublin correspondent of The Times.

Secret negotiations on the basis of full self-government within the Empire have been going on during the last three weeks between the most prominent leaders of moderate opinion and influential republicans, he declared. Moderates have at last been told, he adds, that nothing further can be done while MacSwiney is near death, and if the Lord Mayor dies the last hope of settlement on the proposed basis will disappear.

Appointment of an additional Under-Secretary for Ireland has been decided upon by the Government. It will be his duty to deal with all problems which may arise in the six counties of the Province of Ulster, the Unionists' stronghold in Ireland.

MacSwiney's Weakness.
London, Sept. 14.—Conflicting reports concerning the condition of Terence MacSwiney, Lord Mayor of Cork, were issued this morning, the thirty-third day of the hunger strike which he has maintained in an effort to force the British Government to release him from prison.

The Home Office, from the prison physicians who are attending MacSwiney, stated there was virtually no change in his condition and that he had passed a restless night.

A bulletin issued by the Irish Self-Determination League stated MacSwiney had a very bad night and was appreciably weaker this morning, but he was still conscious and his mind was active.

"WORK, SAVE, SMILE" LORD CAVE'S MOTTO

Noted British Jurist Predicts Permanent Future For Imperial Conference

Vancouver, Sept. 14.—"Work, save and smile," is Viscount Cave's motto in dealing with anarchy, extravagance, scarcity of materials and high cost of living that has grown out of the war, he informed the members of the Canadian Club and the Vancouver Bar Association at luncheon yesterday. All good men must combine to drive the conspiracy of anarchy from our own country," he said in referring to the spread of Bolshevism from Russia.

Lord Cave predicted a permanent future for the Imperial Conference, which he described as a solution of the desire on the part of the several British nations to co-operate closely. "No one country ruled the other, but all agreed to work together of their own free will for the common good of the Empire. He hoped to see the International Court of Justice established at The Hague ripen into a contract for international peace. It was the duty of lawyers to help in supporting this court, he said.

CHICAGO SWITCHMEN RETURNING TO WORK

Chicago, Sept. 14.—Admission by John Greiner, leader of striking switchmen, yardmen and engine-men in the Chicago switching district, that the walkout had ended was reported by the men last night majorities were reported in favor of returning to their former positions. Greiner's announcement that at Sunday night's meeting the men had decided to continue on strike by a majority of 300 was followed by charges on the part of strikers of "bribery, trickery, stuffed ballot boxes and intimidation."

AMNESTY ASKED FOR POLITICAL PRISONERS

Washington, Sept. 14.—Labor leaders asking general amnesty for political prisoners were told to-day by Attorney-General Palmer that the Government would continue its policy of "considering the cases individually."

D'ANNUNZIO'S MEN OCCUPY ISLANDS IN GULF OF QUARNERO

Rome, Sept. 13.—Troops of Captain Gabriele D'Annunzio have occupied the islands of Arbe, Pescara and Veglia in the Gulf of Quarnero, Southwest of Fiume, according to reports received here.

Italian soldiers, making up the garrisons on the islands, are said to have joined the D'Annunzio volunteers.

BOLSHEVIKS REPORTED ADVANCING TOWARDS AFGHAN FRONTIER

London, Sept. 14.—Bolshevik troops are advancing toward the Afghan frontier from Bokhara, says a Calcutta dispatch to the Daily Mail, quoting reports from Kabul and Simla. Afghan troops, it is stated, have been hastily dispatched to assist the Governor of Afghan-Turkistan in protecting the frontier.

WILL SHIP BODY OF OLIVE THOMAS ON MAURETANIA

Paris, Sept. 14.—It is probable that the body of the late Olive Thomas, the moving picture actress who died here last week, will be shipped to New York on Saturday on board the liner Mauretania.

Jack Pickford, husband of the dead woman, and a few friends will accompany the remains to the United States.

Protection Principle Attacked and Defended Before Tariff Board

Winnipeg, Sept. 14.—Protective tariff versus a tariff "on a strictly revenue basis" was urged before the first session of the Tariff Commission sitting here to-day. J. S. McKinnon, president of the Canadian Manufacturers' Association, in a statement which took an hour and a half to read, presented arguments for the continuance of the present protective tariff and asked on behalf of the Association that there be no reduction in this.

N. P. Lambert, representing the Canadian Council of Agriculture, presented an argument asking the Government to change the fiscal policy so as to reduce the custom tariff to a strictly revenue basis. He said:

"Production and trade in Canada have been forced into narrow and un-economic channels through the application of protective duty. The farmers attacked the protective tariff as it exists on the ground that it is the most wasteful and costly method ever designed for raising the national revenue and because of the gross injustices connected with its application."

The statement from the Canadian Council of Agriculture, read entirely by him, said, on the National Farmers' Platform.

Mr. McKinnon stated: "A stable fiscal policy with some assurance of permanence, is a vital need. With the entire world swinging toward protection, Canada can not relinquish it."

The first interruption in the morning session occurred when Sir Henry Drayton interrupted Mr. McKinnon and denied his statement that the Government had estimated a deficit for 1921 of \$148,649,422.

"I certainly never estimated any deficit," said Sir Henry Drayton. "The object of recent estimates has been to prevent a deficit."

At the conclusion of Mr. Lambert's statement, Sir Henry Drayton asked for further information to be presented on the return trip. He asked pointedly the people of Canada, the same period and wanted full information on what the farmers thought of the present form of income tax.

Mr. Lambert said this information would be presented. He said the form was satisfactory but the way it was carried out was not.

In opening the first session of the Tariff Commission, Sir Henry Drayton, chairman, outlined the purpose for which the Commission was appointed. Following this, lengthy statements by the Canadian Manufacturers' Association and the Canadian Council of Agriculture were made.

Sir Henry Drayton stated that an opportunity to speak will be accorded first to all outside men and that local statements would be heard. The text of the statement by the chairman is as follows:

"This meeting is the first of a series of sittings to be held by a committee of the Cabinet. The whole object of the meetings is to obtain just as much information as possible as to how the country's fiscal policy is affecting the people of Canada, her industries and her production and to ascertain what changes in the tariff or other fiscal measures ought to be made, and what alternative and additional sources of revenue can be adopted. We are still Canadians, and whatever differences there may be among us as to method, unquestionably, we all desire that the best thing be done for Canada. The best manner in which to assure that result is to become certain of our facts, to take counsel, one of the other. We are here to obtain information from you, to acquaint ourselves with the local conditions in each province of the country and learn your views first-hand. Your earnest co-operation is asked and I know it will not be denied."

"I have also no doubt that all Canadians stand on common ground in regard to certain underlying principles. First, that Canada must pay her way and discharge her current obligations out of her current revenue. (Continued on page 4.)

REPUBLICAN ELECTED GOVERNOR OF MAINE

Overwhelming Plurality For Frederic H. Parkhurst; Women Cast Votes

Portland, Maine, Sept. 14.—Maine gave an overwhelming plurality to the Republican ticket in the State election yesterday. With a total vote larger by \$5,000 than the highest ever previously cast in the State, Frederic H. Parkhurst, of Bangor, was elected Governor by a margin of 15,000 over his Democratic opponent, Bertrand G. McIntire, of Norway.

The plurality was 17,000 more than the largest obtained by any other gubernatorial candidate in the history of the State.

Every member of the State Senate will be a Republican, while of a membership of 151 in the State House of Representatives the Democrats succeeded in electing thirteen. In the last Legislature there were two Democratic Senators and forty-one Democratic representatives.

The vote of the State for Governor, with returns from forty small towns and plantations in remote districts missing was:

Parkhurst (R.), 132,817; McIntire, (D.), 69,249.

The increase in the total vote was very largely accounted for by women voting for the first time. The women showed themselves eager to exercise their new privilege. The result showed that most of them voted the Republican ticket.

Colonel Parkhurst gave the viewpoint of the Republicans in a statement. He said the campaign had been vigorously contested by the Democrats on national issues and that the outcome gave "most conclusive evidence that the voters of Maine resent the autocratic and un-American administration that the Democrats have given us."

He declared that it was "equally an endorsement of Harding and Coolidge."

JAPANESE KILLED BY SHELL EXPLOSION

Officer and Four Sailors Killed, Others Injured on Battle Cruiser

Tokio, Sept. 13.—Lieut. Hamada and four members of the crew of the Japanese battle-cruiser Haruna were instantly killed when a shell being placed in one of the heavy guns prematurely exploded off Hokokaido to-day. One petty officer and nine sailors were fatally injured, while two others were slightly wounded.

Vice-Admiral Prince Fushimi was aboard the warship when the explosion took place, but escaped injury. It is understood the damage was confined to one of the turrets of the ship.

WASHINGTON PRIMARIES

Seattle, Sept. 14.—Washington men and women went to the polls or gathered in party conventions to-day to select state, congressional and county candidates to be voted on at the general elections November 5. Only Democratic and Republican parties were represented in the primaries, prohibitionists meeting in Tacoma, and members of the Farmers-Labor Party in Seattle, to name their candidates.

MUST LEARN ENGLISH

Toronto, Sept. 14.—Judge Denton of the County Court has refused yesterday to approve the naturalization papers presented by two Poles and a Macedonian until the applicants had acquired a better knowledge of English than they now possess.

VOCATIONAL STUDENTS ALLOWANCE TO BE INCREASED SHORTLY

An announcement of great interest to students taking vocational training under the Soldiers' Civil Re-Establishment Department has been received in the city this morning. It is to the effect that the allowances will be increased to single and married men. No details are yet available.

DESCHANEL, FRENCH PRESIDENT, REPORTED ABOUT TO RESIGN

Paris, Sept. 14.—President Deschanel probably will be forced to resign because of ill-health, says the newspaper L'Echo, which says the French parliament will open its session early in November, after electing a new President.

LABOR CONGRESS IN CONVENTION

Lively Stride Struck During This Morning's Session at Windsor

Windsor, Ont., Sept. 14.—This morning's session of the Trades and Labor Congress of Canada struck a lively stride during the opening of the session at the Windsor Convention hall, Sept. 14.

The session was opened by a report from the Executive Council recommending a non-partisan commission to deal with all tariff matters. Shortly after this a heated argument was precipitated with the clause in the report of the Executive Council relating to political action.

Delegates J. W. Wilkinson, of Vancouver, in presenting the report, declared strongly against the intervention of the Congress in politics and pointing out that every vote of labor, drawn into the political arena, was a vote for the capitalist.

The Congress adopted a clause in the report of the Executive Council recommending a non-partisan commission to deal with all tariff matters. Shortly after this a heated argument was precipitated with the clause in the report of the Executive Council relating to political action.

Delegates J. W. Wilkinson, of Vancouver, in presenting the report, declared strongly against the intervention of the Congress in politics and pointing out that every vote of labor, drawn into the political arena, was a vote for the capitalist.

Declared Crisis of Workers' Movement In Italy Has Passed

On Edge of Bolshevism, Says Giornale d'Italia, But Danger Appears Removed; Leaders' Heralds of Necessity For Production.

Rome, Sept. 14.—Italy has passed through the crisis of the metal workers' movement, according to The Giornale d'Italia. In commenting on the situation the newspaper says: "Until last Saturday we were on the edge of Bolshevism. That danger seems to be removed and leaders of workmen have become the heralds of necessity to produce more. We shall see whether they are able to induce their followers to do so."

Iron Materials Seized.
Florence, Sept. 14.—Three truckloads of iron materials have been seized by metal workers at the station of Arrezzo, near here, the workers claiming the iron was needed by them in factories they have occupied. The value of the materials taken over is estimated at five hundred thousand lire. Several motor lorries with wheat also have been seized by the men.

Have the old Furniture Re-upholstered with Craftsman Fabrikoid

SPRING or Fall and its house-cleaning bring the question of refurbishing the old furniture. The price of furniture has advanced 100 per cent. in the last ten years, so why not save the old and make it look like new. Upholstery gone? Fabrikoid is the answer—an attractive covering that looks like leather, costs less and wears longer.

Fabrikoid gives a richness to furniture that cannot be obtained in any other covering at the same cost. It is the one satisfactory furniture covering in the home where there are children. Greasy fingers leave no stains on Fabrikoid, spilled water will not penetrate it—it does not scratch, tear, pull or stretch, still it is as pliable as the softest of leather.

Get Fabrikoid in a shade that will match your furniture. It will fit nicely with the surroundings in any home. And it is all of uniform thickness and texture—you take no chance on Fabrikoid.

When you send your furniture to be re-upholstered, tell your dealer to show you his samples of Fabrikoid. Select the color you need—you cannot go wrong on the quality, if you insist on Fabrikoid. Write today for our free booklet "Fabrikoid in the Home" and learn what can be done at home with Fabrikoid.

Canadian Fabrikoid Limited
Head Office, Montreal
Halifax Toronto Sudbury
Winnipeg Vancouver

Most of the motor cars in Canada today are upholstered or topped with Fabrikoid.

CANADIAN FABRIKOID

DEFEATED CANDIDATE SUBMITS EXPENSES

Washington, Sept. 14.—Here are some of the campaign expenses of G. H. Forre, a defeated Missouri congressional aspirant, which he listed under oath in his expense account filed recently with W. Tyler Page, clerk of the House of Representatives.

"August 1.—Postage for 25 letters to influential men in my district, telling that I was trusting to the kindness of the people and the mercy of God to elect me (both failed)—50 cents.

VOTING TO-DAY IN NEW YORK STATE

New York, Sept. 14.—Enrolled Republicans and Democrats of New York State went to the polls to-day to vote for candidates who seek party nominations for the various State offices as well as for United States Senate, for Congress and the Legislature.

Professor: "The boys were so entranced this morning, that they remained in class all through the noon hour."

health of our future generation be it their traffic allowed to continue? Can we expect healthy and moral children from parents who are victims of the drug habit? Certainly not; our own judgment is sure to say "no" a thousand times. Drugs deprive a man of all sense of honor, self-control and reason in time. Their wives and families will have to go without proper nourishment so that the poor drug addict can buy his supply of drugs. In many cases these victims are in our very homes without our knowing. These drugs make a person cunning. In order that you may not suspect the secret they are always on the watch, and always planning to deceive you with anything to divert your attention. They are ashamed of themselves, and don't want to be despised by their fellow-men, so they have to practise a certain amount of deception continually. A person cannot leave drugs alone at a moment's notice without mental and physical torture. Unlike liquor they must have more and more every time. This traffic if allowed to continue is going to rob us of some of our cleverest citizens, and it is going to spread more and more until a remedy is applied. That remedy is in the sale of liquor to households. Let the Government control the sale and distribution of same. We are now fighting a deadly and injurious vice, and it is in the power of every citizen to help conquer the drug traffic and bootlegger. Man is a supreme being and quite capable of using discretion and to refuse to be misled by using same, through the fads of a few, and their sympathetic listeners and followers is a great insult in my estimation to an intelligent man or woman of today.

GLADYS PROCTER.

PERSONAL LIBERTY.

(No. 3)

To the Editor:—Rudyard Kipling once thought he enjoyed British freedom, the type of liberty that we bear so much of during temperance contests. He once thought his was the privilege of individual action so long as such action came within the pale of the law. But he received a sudden jolt and was large enough in mental calibre to recognize a more universal law than the imperfect attempt to express conditions and requirements of human justice upon the statute books. The intuition of such men penetrates into the nature of things and recognizes people's responsibilities and the inevitable

result of individuals following their own selfish desires, unthinkful of the results of such actions upon others. Kipling had been an occasional drinker, he considered his glass of beer or wine as articles to be taken "either at his pleasure, or in this delicious received a very severe awakening. Sitting in a restaurant one evening enjoying a glass of beer, his ever watchful eye caught sight of a young man sitting at a table with two girls. He saw these human devils ply their girl companions with liquor till they were completely in their power. Then he said to himself: "I am a Kipling." "I saw these young men take these girls reeling down a dark alley. I then realized that my call for a glass of beer helped to send these girls to God knows where. From that time I became an abstainer."

What a considerable, kindly and gentlemanly spirit was manifested by Kipling in this act! Was it not in perfect harmony with that unparalleled definition of a gentleman given many years ago by a man named Paul, who said that he would "either eat flesh or drink wine not anything that would cause his brother to offend?" The principle herein outlined is so fair, so just, so acceptable that he who refuses to consider it as a basis of action must take upon himself the risk of being considered selfish and unsocial. All social progress depends upon the service of the individual preferences and desires in the presence of the greater universal welfare. He who fails to recognize this principle is not wholly awake. He is in the jaws of the "tiger" of development. The tiger and the ape are still dominant and are awaiting elimination as development proceeds. We are our brother's keeper, whether we recognize it or not, or whether we wish it or not. Our very constitution compels it. Modern science reveals it, and practical experience confirms it. When men become human prohibitory laws will not be necessary, for no refined individual could endure the thought of exploiting the weak and unfortunate. Prohibitory laws are necessary only to restrain the undeveloped and the vicious from a blood-sucking parasite life, from making gain out of the destruction of the nation's greatest asset—the lives of our people. Surely no citizen of Victoria can detect his portrait in the above description, for we are not an advanced and humane people.

ERNEST A. HALL.

Vancouver Island News

NEED IS EMPHASIZED FOR HEALTH CENTRES

First Annual Meeting of Esquimalt Rural Branch of Victorian Order of Nurses

Colwood, Sept. 14.—At the first annual meeting of the Esquimalt Rural Branch of the Victorian Order of Nurses held at Colwood Hall last Friday, Col. E. C. Hart, M.D., C.M.G., Honorary President of the Association, occupied the chair, the speakers being Dr. H. E. Young, Provincial Public Health Officer; Mrs. Fleming, Chairman, Canadian Red Cross Society; and Mrs. P. H. Pooley, M.P.P. The Secretary's report outlining the year's work and the financial statement testified to the generosity of the local subscribers and to the generous assistance given by the Red Cross, both in the way of cash donations and in the gift of a car to enable the Public Health Nurse to carry on her work more efficiently, and the heartfelt thanks of the committee were extended to the Red Cross Society, to the local subscribers for their generous response to the appeals for funds; to the Honorary Auditor, F. Bolton, public accountant, and C. E. Whitney-Giffiths.

The financial statement as read by the Secretary, Mrs. Neal, was as follows:

Receipts	Expenditure
Subscriptions and donations \$ 929.75	Nurses' salary and board \$ 806.50
Nursing fees 147.85	Car repairs, gasoline and oil 137.30
Proceeds, concert and dance 21.50	Nurses' bag 20.00
Bank interest 1.20	Incidentals, including drugs 122.57
Total \$1140.30	Total \$1140.37

Balance August 31, 1920 \$32.00

In bank \$32.00
Public Health Nurse
The report of the Public Health Nurse, Miss O. K. Gawley, Sept. 1, 1919, to Aug. 31, 1920, was as follows:

Number of cases nursed, 140; including: Medical 76, surgical 40; gynaecological 2, confinements 6, infectious 31, operations 12, tuberculosis 4, chronic 9.

There are thousands of unemployed men in our midst to-day. If the breweries and distilleries were reorganized and put into working order, they would provide employment for a great number of these men. One trade helps another. The following are a few of the people who would be occupied: Coopers, ironworkers, bottle manufacturers, case makers, box makers, truck drivers, carters, labellers, clerks and packers.

If the breweries were controlled by the Government think of the enormous profit they would have annually. This would lessen the burden on the taxes, and help the Government to obtain some of the cash they need.

Prohibition has brought into evidence the drug habit. The man who has been accustomed to stimulants and is deprived of the kind he has had will find another, in the form of drugs. Never has the drug trafficker made money so quickly as he is doing to-day. He and the bootlegger are two great enemies we must try to put out of existence. These people will vote strongly in favor of prohibition, not to benefit mankind so much as their own financial gain. The drugs now being circulated are ruining the constitutions of thousands to-day, robbing men of their birthright—a healthy body. What will the

MINISTERS TO SPEAK AT METCHOSIN HALL

At the meeting to be held at Metchosin Hall to-night under the auspices of the Metchosin Farmers' Institute, and at which the Hon. S. F. Poindie and Hon. E. D. Barrow are to speak, it is expected that a report will be made showing the result of the chemically treated stumps at the Granges, Metchosin, the home of Whitney-Giffiths Bros. Some of the stumps, which were treated last May, have now been felled. The owner of the patent was unable to come West, so instructions were sent as to how these were to be set off, and this was done last week. It was stated that trees or stumps treated with this patent chemical would, two months after treatment, when set apart, be completely consumed, including the roots, and a report of the result, which has been awaited with great interest, may be expected to-night. It is also hoped that the Minister of Agriculture for the Province will have another important announcement to make concerning the clearing policy that the Government is endeavoring to lay down. Musical numbers will be presented by Mrs. Ned. Ashe and Capt. R. C. Barrington-Foot.

METCHOSIN DISTRICT IS SHIPPING WOOL

Metchosin, Sept. 14.—Another shipment of wool has been made through the B. C. Woolgrowers' Association. It is the first shipment of wool from Metchosin, one full car had already been shipped, and this is the balance which was delayed from the first shipment. Several other sheep men will yet send in their consignments as all the wool shipped previously have now received an advanced payment of 15c. per pound from the Canadian Co-operative Woolgrowers. The B. C. Woolgrowers from the Metchosin district at Kamloops report a most successful collection, and are highly gratified with the consignments from Vancouver Island. The membership has been increased from this section alone by over fifty, and an application has been made for a grant of \$1,000 from the Provincial Government. This organization is provincial-wide. A sum of \$750 appears in the estimates to be used for the sheep breeders of the Province, but it is hoped that the Government will allow more than the \$750, owing to the excellent work done by this association this year. The Canadian Co-operative Woolgrowers have now got in touch with the Western Canada Woolen Mills Co., who have commenced operations particularly in the manufacture of blankets and coarser cloths. An effort will be made to place the British Columbia wool with that company, thus avoiding the extra freight rates that are occasioned if this wool had to be brought back, which would probably be the case as the operation of the co-operative collectors cover every province in Canada. This organization being nearly perfect.

Oil in Fraser Valley.
Whether oil in paying quantities is to be found in the Fraser Valley will more than likely be determined very soon if indications now existing at the Empire well are sustained. At a depth of 2,300 feet the drill encountered gray gumbo thickly studded with what experts declare to be oil sands and the bales brought to the surface approximately two quarts of oil in the mud. It is said.

F. G. Bryan, an experienced oil man who has operated throughout the Texas, California, and Oklahoma districts, was a visitor at the well when the splendid showings were made. He is enthusiastic to a degree over the prospect and declared he believed the well as it stood now was capable of producing 500 barrels of oil daily. "The district corresponds exactly with that of the best producing centres," he said, "and I confidently believe from everything I have seen that oil will be found in quantities that will make this district a rival to some of the best paying districts in the South."

Death in Logging Camp.
Cumberland.—The funeral of Stanhope M. Peatt, aged 31 years, a native son of Victoria, took place on Thursday, at Cumberland cemetery, following services at Holy Trinity Church. The service was attended by Mrs. and Miss Peatt, of Victoria, mother and sister, and Mr. Peatt, of Nanaimo, a brother. Death took place instantly while Peatt was attending his duties at the logging camp of Bloedel, Stewart & Welch, near Union Bay. Peatt was attending as a "chaser" following a log out on the hook, when the log hit a standing dead hemlock tree, some 70 or 80 feet tall, breaking it off at the roots. It fell in three places. Peatt ran up the log to try to avoid the falling tree, but was unable to get clear, a large piece of the tree hitting him on the head.

Courtenay Fair.
Courtenay.—The judges at the Fall Fair at Courtenay, to be held on Sept. 25 and 26, have been appointed as follows: Fruit, vegetables and field-crops—E. W. White. Horses—G. E. Goddard. Cattle, sheep, pigs and goats—Dr. Knight. Dairy products, honey, domestic science—Mrs. Carrier. Exhibits of women's work and poultry—E. Greenwood.

Farm Rented.
Ladysmith.—The farm near Chemainus owned by Father MacDonell, which has been rented by the Wilson family for several years, has been leased to G. Clark from Saskatchewan. Mrs. Wilson and family have moved to Vancouver.

Enters Suit.
Nanaimo.—As an aftermath of the tragic death of Angus McRae, on June 30, last, when an auto driven by young Edwin Allen, was wrecked on the E. and N. Railway crossing between Northfield and Wellington, B. C., Allen, the father of the young man, has entered a claim for damages against the C.P.R. for serious and permanent injuries resulting from the collision. The verdict of the jury which deliberated on the case did not impute any carelessness to the railway employees in connection with the accident.

Church friends presented Miss A. Jock, who is to be married Wednesday to H. L. Hull, of Gibson's Landing, Howe Sound, with a cut glass water set at a social gathering in her home last Friday evening. Alderman Barby tendered good wishes on behalf of the congregation.

Presentation.
Nanaimo.—At a well attended meeting of St. Paul's Five Acres Guild held in the Mission Hall, a very hearty vote of thanks was accorded to Mrs. Matthew, the energetic secretary of the Guild, who leaves shortly for England, and in order that she might always carry with her a reminder of the many friends she had made among the members, she was presented with a gold mounted fountain pen. During the course of the afternoon a very dainty and at the same time substantial tea was served, and altogether the meeting was one of the most successful ever held by the Guild.

The financial report was so encouraging that the meeting decided to proceed at once with the suggested improvements to the Mission Hall.

GIOLITTI'S JOB.

It is one of the peculiar ironies of the times that Premier Giolitti should be confronted with problems more difficult and distracting than any which engaged the attention of his immediate predecessors. Giolitti, who is well known as a foremost radical leader, raised no little trouble for the various Governments during the last few years. He opposed Italy's entrance into the war at the time the decision to intervene was reached and his agitation against certain aspects of Italian policy helped to create quite a number of domestic crises.

Giolitti's accession to the Premiership a few months ago reflected the dominance of the radical sentiment throughout Italy, but, judging by present developments, the question that remains to be answered is whether even he is radical enough to keep abreast of the movement which seems to be nearing its flood tide in the ancient Mediterranean state. No nation not actually in the throes of a revolution has passed through such an industrial crisis as that in which Italy is now involved. The metal workers in the great industrial centres have taken possession of the plants in which they have been employed and are operating them, in some instances, under red and black flags. Even munition works have been occupied in this way; a development which adds a particularly sinister aspect to the whole situation.

So far the National Labor Party, which is controlling the employees' movement, has decided to confine these proceedings to the metal workers, while the leaders repudiate the suggestion that they are endeavoring to establish bolshevism throughout Italy. But whether the National Labor Party can restrict these operations to the metal employees or the leaders restrain the ardor of the rank and file is another question. If they should fail to do so, Italy would be confronted with a domestic upheaval which would threaten the overthrow of every established institution in the country, the echoes of which would reverberate through Christendom.

THE TWO VIEWS.

Students of political events in British Columbia cannot complain of any lack of variety of expression on the part of Government and Opposition forces. On his return from a three weeks' tour of the northern and central sections of the Province yesterday the Minister of Lands declared that he had found no complaints about the manner in which the affairs of the country are being administered by the Oliver Government. The Leader of the Opposition, however, has returned to the city with the opposite view. He confines himself to one subject and suggests that dissatisfaction among a section of the settlers in the Fraser Valley in connection with "another sample of the incompetent manner in which the Department is conducting its business." In fact the Leader of the Opposition loses no opportunity to enlarge his application of an alleged local grievance to create the impression that the whole of the Province is suffering from the effects of maladministration. But Mr. Bowser has a particular penchant for scenting road difficulties—one of the greatest problems for any Government in a Province like British Columbia—because he has never ceased to mourn the abolition of the old system of road administration. When the Opposition Leader, therefore, chooses highways for his subject of criticism it may be supposed that he still remembers the dependence he used to place upon "the boys" who "ran" the roads in election days gone by.

MAINE HITS OUT.

For many years the state of Maine has been regarded as the weather vane of national politics in the United States. There was a saying that what Maine does to-day the rest of the republic will do to-morrow, and until recent years there was a great deal of basis for that view in the country's record. If it is true again, and if the result of the state election yesterday may be used as the unit of judgment, surely the sands of the Democratic Party's hour-glass have nearly run out.

The Republicans swept everything before them in yesterday's election. They elected a Republican Governor by the highest plurality ever given in the state, while every member of the next state Senate will be a Republican and in the state House of Representatives there will be only thirteen Democrats out of a total membership of 151. The increase in the total vote is attributed to the fact that the women cast their ballots for the first time and it is plain that most of them voted for the Republican ticket.

Although the election was local, national issues played a considerable part in the campaign. President Wilson's alleged autocratic methods were vigorously attacked by the Republicans, who also made the most of the charge that Governor Cox was a champion of the liquor interests and therefore hostile to prohibition, a charge which was bound to be a very potent factor in a Maine election.

Naturally the Republicans are jubilant, but it should be remembered that in recent years Maine has not faithfully maintained her reputation as a safe guide to the political future. She went Republican prior to the last presidential election, but the union went Democratic. In fact the hostility of the Atlantic states is conceded by the Democrats who recall that President Wilson won his election in the West and South.

MERELY A TRIFLE.

According to the President of the American Packers' Association the combined business of the quintette of companies known as the "Big Five" amounts to \$3,500,000,000 with a net aggregate profit of a little more than \$34,000,000. But in his address to the convention which opened at Atlantic City yesterday he stated that none of the "Big Five" packers received as much as a cent and a half of profit on each dollar of sales made in 1919, and in order to prove that packers' profits were not excessive he compared them with the profits of twenty-six other corporations.

There is something refreshingly candid about the confession of the President of the American Packers' Association. His statement of the yield to the packers on last year's sales may be literally correct. It may be that the return per dollar of sales fell short of the amount specified by a quarter of a cent, or he may have employed the term merely as a figure of speech for the purpose of creating the idea that the business for 1919 was an even-break without any profit at all. But if there was one cent and a quarter of net profit on each dollar of sales up to three and one-half billions the "Big Five" certainly were not exactly "up against it" for even the temporary period under review.

NOTE AND COMMENT

Colonel Edward House says there is no cleverer politician living than Mr. Lloyd George. Were more than one President and several Premiers to express public agreement with these sentiments they would be doing nothing more than speaking out of their own inner consciousness.

There is still a good deal of misunderstanding on the subject of the Prohibition referendum. Some people believe that if Government control carries the Cabinet will be in a position to frame and put into operation regulations to give effect to the people's wish forthwith. This is not the case at all. If Government control should pass the regulations for its enforcement will be framed by the Legislature at its next session. The people are asked to vote upon the continu-

ance of the present Act or upon the principle of Government control.

The Toronto unit of the Army and Navy Veterans in Canada has gone on record as disagreeing with other veterans' organizations in their expressed desire for a general election at this time. Its resolution believes that the present is not the time for such a course. It will now be in order for the new Premier to express his gratitude for the "wisdom" displayed by the Toronto body.

IN THE DAY'S NEWS

Wesley L. Jones, who is a candidate for nomination in the Washington State primaries to-day, is now completing his second term in the United States Senate. Having had ten years' service in the House of Representatives, Mr. Jones entered the Senate in 1909 with accurate knowledge of conditions at the capital that makes for success or failure as a lawmaker. He was born and educated in Southern Illinois, and, after graduating from college and gaining admission to the Illinois bar, migrated, in 1889, to the then territory of Washington to make his name and fortune. In the evolution of the region from a territory to a State he had a hand, and he showed the talent he had displayed in leaving Illinois as an orator and a leader of the people in political affairs. Within nine years after he had settled in North Yakima, he had become a prominent factor in the Republican party in that region and been sent to Congress.

ANNIVERSARIES TO-DAY

1758—Montcalm, whom France ranks with St. Louis and the Chevalier Bayard, died at Quebec. Born near Nîmes, France, in 1712.
1851—James Fenimore Cooper, the first great American novelist, died at Cooperstown, N. Y. Born at Burlington, N. Y., Sept. 15, 1795.
1870—A popular agitation for self-government was launched in Bohemia.
1881—Nearly 100 lives lost in the wreck of the steamer "Asia" on Lake Huron.
1892—Thousands attended the funeral of ex-President Grevy of France, in Paris.
1901—William McKinley, twenty-fifth President of the United States, died in Buffalo from the effects of shots fired by an assassin. Born at Niles, O., Jan. 29, 1825.
1919—Turkish Government consented to the shipment of relief supplies from the United States to the famine sufferers in Syria.

WHERE IT STARTED

DICE.
(Copyright, 1920, By The Wheeler Syndicate, Inc.)
While there is some dispute about the origin of dice, authorities combine in crediting the Greeks with their invention in 1215 B. C. This places them as one of the most ancient of game devices. The dice which have been discovered in the ruins of ancient Egypt, actually like the ones with which we of the present day seek for "Naturals" and "Big Dicks."

WHY

"TRUE BLUE."
(Copyright, 1920, By The Wheeler Syndicate, Inc.)
The use of this expression dates back to the troublous times of ancient Rome, when the Emperor Justinian favored a clan whose color was blue, in opposition to another group, who wore green. Blue thus became to be considered the color of loyalty. The Covenanters adopted blue as their color in opposition to the scarlet of Charles I.

HOROSCOPE

TUESDAY, SEPTEMBER 14, 1920.
(Copyright, 1920, By The McClure Newspaper Syndicate.)

This is rather an unimportant day in planetary direction, but it is an aspect, but there are many mild, adverse influences.

It should be a fairly fortunate day for any sort of commercial enterprise and, favorably for journeys that have for their object some business mission. Neptune is in a place supposed to impart vision, intuition and understanding.

The rule seems to promise much to persons dealing in oil, whether through stocks or as actual holders of the product.
Saturn is menacing to-day, so that the cautions will be careful in real estate transactions, in mining deals. Centers in which men work underground are subject to the most disturbing rule of the stars, making for discontent and labor troubles.

Mars is in sinister sway, but whatever peril threatens is far off.
Spain certainly will pass through a crisis, if the stars are read aright, and the king is now under the most threatening rule of the stars.

The Moon seems to tell of royal romance and the marriage of an English princess is foretold.

Agitation concerning public revenues may come much to the fore at this time and extravagance will be uncovered in more than one state.
Women who are leaders in politics or any public service now have to contend with planetary influences that are most threatening, since they encourage envy and malice that works trouble.

The election of a woman to high office foretold at the beginning of the year is again announced by the stars, but they declare that there will be serious disappointment for one of the most prominent candidates.
In contrast to the public service of many astrologers' prophecies a revival of the ancient household arts which will become very fashionable.

Persons whose birthday it is may experience a strenuous year in business which should be successful. All litigation should be avoided.

Children born on this day may be too fond of amusement to progress rapidly in any serious pursuit. They should be wisely trained and educated, for they should have fine possibilities.
Tribute to Late Worker.—The Women's Auxiliary to the G.W.V.A. have expressed their deep sympathy with the husband and family of the late Mrs. Mars, whose funeral took place on Saturday afternoon. Mrs. Mars was a member of the organization and until her illness was a most painstaking and untiring worker and she will be greatly missed from its ranks.

PROTECTION PRINCIPLE
ATTACKED AND DEFENDED
BEFORE TARIFF BOARD

(Continued from page 1.)

"Second, that policies conceived to bring about conditions assuring maximum opportunity of profitable labor in all spheres of human activity that can be properly and profitably carried on in this country, should be adopted.

"Third, that in carrying out these principles our fiscal policies while insuring the necessary revenue, should be applied in a manner least burdensome to the public.

"In our considerations it is necessary to have before us and to keep constantly in mind the dollar cost of our preserved and continued freedom. For the entire fiscal year the necessary expenditure resulting from the war is as follows:

"Demobilization, \$38,700,000; war graves commission, \$1,000,000; soldiers' pensions, \$36,500,000; soldiers' civil re-establishment, \$40,500,000; soldiers' land settlement, \$50,000,000; interest on war debts, \$130,300,000. Total, \$298,500,000.

Exchange Rate.
"While the country's currency obtains an exchange premium in many countries we are faced with an unfavorable exchange rate in the United States, where, nevertheless, more than 75 per cent of the nation's purchases are made, resulting in heavy additional financial charges. Over and above all this, the well-known high cost of commodities and increased salaries and wages have largely added to the expense of the government in this, as in all other countries.

"The estimates for the current year call for \$314,000,000 for objects apart from the war.

"It is the most pressing concern of the Government to reduce all controlling expenditures to that degree which will permit in connection with all its activities. It is nevertheless, perfectly obvious that a large revenue must be obtained, and those submissions made with this underlying necessity in view, will be the most in accord with the national interest."

J. F. McKinnon, President of the Canadian Manufacturers' Association, read in its entirety the statement to the Tariff Commission from the association and N. P. Lambert, secretary of the Canadian Council of Agriculture, read the text of the Council's statement. Thomas Finlay, of Toronto, president of the Massey-Harris Company, presented the case for the agriculture implement manufacturers' group of the Canadian Manufacturers' Association.

Farmers' Platform.

The farmers' platform is an attempt to define a new national policy for Canada, and the principle, though which it seeks to leave in the mind of the Canadian people is that Canada is, and will be for years to come, a pioneer country. It is based upon the facts that agricultural land is Canada's richest natural resource; that the bulk of it lies in idleness and waste; and that the Dominion's greatest need—revenue—comes from working on the land. Because for forty years the development of this Dominion has been subject to the influence of a so-called national policy, which makes more than one-half of the country's wealth, the suggestions contained in the farmers' platform have to do mainly with questions of fiscal reform. The bedrock upon which the farmers' platform would lay a new national policy for Canada, is upon a low customs tariff and upon direct methods of taxation. Proponents of this policy describe it as destructive, and its supporters as "wreckers and destroyers," all of which is untrue. It does not ask for drastic legislation, which would tend to unsettle and injure Canadian industry, but it does take the position that a national policy based upon the principle of protection, is wrong. It suggests that the fiscal policy of Canada's future governments should aim at redeeming the customs tariff to a strictly revenue basis. Production and trade in Canada have been retarded, and the Dominion prevented from proceeding favorably towards a realization of the fruitful destiny which Nature has bestowed upon her.

Taxation Reform.

The demand of the organized farmers for reform in the existing method

of federal taxation, strike at the costs of living and production. For example, it is urged that the customs duty on goods imported from Great Britain should be reduced immediately to one-half the rates charged under the general tariff. The result of such a reform would be to lower the cost to the Canadian consumer of such staple textile products as woolens and cottons. If there is one industry more than another in Canada which ought to be made to stand on its own feet, it is the textile industry. Abundant evidence as to the capitalization and financial returns to the principal textile companies in this country has been provided in the report of the special Parliamentary Committee on the high cost of living, which sat in Ottawa in June and July of 1919, and also in the report

aspices of the Federal Government is to call into conference the treasurers of every Province and of every large municipality in the Dominion. That conference should endeavor to divide fields of taxation so that there would be the least possible overlapping, and therefore an equitable division as possible in the field of taxation between the Dominion, the Provinces and the municipalities. Political difficulties might seem to threaten the success of such a conference, but the very great and urgent national need of bringing every part of the Dominion into co-operation in the problem of adopting a fair and just system of taxation is of such paramount importance that party considerations of a partisan political character should be held up to the public contempt which they deserve.

Implements of Production.
Then, with regard to implements of production. Next to those articles of food and clothing entering into the actual costs of living machinery may be classed as of vital importance to a country whose future depends upon the development of vast areas of unsettled land and unexplored forest and mining regions. The principal factories engaged in the production of farm implements in this country are able to maintain an export trade abroad equal in proportion to their home trade. At least in the case of one concern, manufacturing farm implements, export trade represents considerably more than half of the total business transacted. Over against this condition is the fact that upon a binder, which carries a lower rate of protection than any other farm implement, manufactured in this country, the Canadian farmer pays \$21.90 in duty, as compared with \$18.00 before the war. The farm implement industry in Canada has no claim whatever to protection, either on the basis of being an infant industry or upon the necessity of preserving for the home market. On the other hand, freedom to import implements of agricultural production into this country from any

MUSIC THROUGH A DIAMOND

SELECT SITE FOR A NEW CEMETERY

Alderman, Active in Cemetery Project, Says Electors Will Support It

While arrangements for the establishment of a joint municipal cemetery are still far from completion, and while some members of the City Council consider the whole new cemetery project quite hopeless, the Civic Cemetery Committee has practically made up its mind concerning the selection of a new cemetery site.

This announcement was made late Saturday by Alderman Robert Dinsdale, who is the most active of the city aldermen as far as the cemetery question is concerned. When making announcement regarding the cemetery site, the alderman declared emphatically that a bylaw providing for the establishment of a new cemetery would carry at the polls by a large majority.

Alderman Dinsdale, who has examined land in all sections surrounding Victoria, did not, of course, wish to make known the location of the cemetery site, but stated that suitable land had been discovered. If it could be purchased for a satisfactory price, he intimated, the Cemetery Committee would recommend it to the City Council.

"There is absolutely no doubt that the electors will endorse any reasonable cemetery scheme placed before them," declared Alderman Dinsdale. "They realize the necessity for a new cemetery and, I believe, are prepared to pay for it. I do not share at all the fears which others entertain regarding the passage of a cemetery bylaw. There is no question about it being supported at the polls. Whatever else happens the dead must be buried, and whatever people's ideas may be on other issues they are one on this question. On this account the Cemetery Committee is going right ahead with its work, and will not be deterred by the prognostications of people who think that the public will turn down any project laid before it at this time."

W. H. JOHNSON, of Portland, Ore., who says no one could have done him any greater kindness than the friend who advised him to try Tanlac—Gains fifteen pounds.

"Not in a long time have I enjoyed such good health or felt so well generally as I do since taking Tanlac," said W. H. Johnson, 319 East 43rd St., Portland, Ore., who holds a responsible position with the Northwest Transfer Company.

"About a year ago I began suffering from lack of appetite and stomach trouble and since that time—that is, until Tanlac set me right—I have felt so poorly that I could hardly do my work. My food seemed to do me little good, if any, as my digestion was bad, and I lost both weight and strength continually.

"After every meal there was a dull, nagging pain in the pit of my stomach that kept me feeling miserable for hours.

"The gas from my sour, undigested food would blow me up so terribly and my nerves were so upset that I would like awake half the night unable to sleep. I was constantly having blinding dizzy spells and could not bend over, and I straightened up quickly, but what everything seemed as dark as night to me.

"I was telling a friend one day how bad I felt and he advised me to try Tanlac, and I just want to say he couldn't have done me a greater kindness.

"I have picked up all of fifteen pounds in weight, my appetite is fine, and although I am eating just anything I want my stomach never gives me a particle of trouble. My sleep is sound and restful and my strength and energy have been so renewed that my work is no longer a burden to me."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and Lang's Drug Store, Esquimalt Road.

A powder-box and puff is to be found in the desk of every school girl in Cuba.

PARIS LONDON **VIVAUDOU** MONTREAL NEW YORK**MAVIS**

Before the opera—a few drops of Mavis Toilett water and a sprinkle of talc—and you are ready to motor off.

Mavis talc will preserve all the youthful charm of your skin. Its cool, soothing touch will really delight you.

No woman's dressing table is complete without these two delightful adjuncts.

Irresistible!**TO-DAY'S JEWELS**

The topaz rules over mortal destiny to-day. It is a talisman against financial losses, but it is also the emblem of secrecy and should be worn with care. According to an old legend, a topaz worn to-day will bring about a startling revelation which will not give complete happiness.

The ruby, which is to-day's natal stone, has the happy power of bringing to all whose birth anniversary this is a position of responsibility and command. Victory in legal controversies are assured the wearer of the ruby and a journey by land or sea with a business objective will be attended by good fortune.

Pink is the color to be observed on this day, according to the oriental mystic. Worn by a young girl, it promises great admiration. For an

elder woman it is said to bring social triumphs.

The Gloire de Dijon rose is to-day's lucky flower. It is the symbol of true love and should bring the fulfillment of the heart's desire to those who wear it.

Daisy Chain Chapter Met—At a meeting of the Daisy Chain Chapter, I.O.G.E., held at the home of the regent, Mrs. Love, on Saturday afternoon, plans were made for a sale of work to be held in December, and Miss Winn's class is to be given a tally-ho drive during the month.

Miss Dorothy Norris has been elected first vice-regent, and Miss Helen Macdonald, second vice-regent, while Miss Gwen Hudson is treasurer, Miss Margaret Campbell, and Miss Mona Miller having resigned office owing to their departure for school in Toronto.

STIRRING ADDRESSES**AT LOCAL COUNCIL****Emigration, Vivisection and Prohibition Discussed at Yesterday's Meeting**

Addresses on topics of current interest occupied the major part of the meeting of the Local Council of Women, which met for the first time after the summer vacation at the Union Bank Building yesterday afternoon.

Miss Leach, who presided, was in the chair, and the attendance was rather small.

Talk on Emigration. Miss Leach, a former social service worker of Victoria, who has recently returned after an absence of four years, gave an interesting talk on the problems of emigration.

Miss Leach was for a considerable time in the office of the British Government Overseas Settlement Board, in London, and her remarks bore the hall-mark of personal knowledge of the conditions of emigration.

She pointed out that under the new conditions imposed by an Order-in-Council of February last no woman emigrant was allowed to enter Canada without a permit from the Canadian Emigration Office in London.

Declaring that British women had advanced fifty years during the war, she pointed out that the hope that everything would be done by Canada to encourage the women of the Old Country to emigrate to the Dominion, for the sake of the whole Empire.

Women of the finest type, including widows of fallen soldiers, ex-Land Army women and munition workers were looking to Canada as affording them an opportunity to get away from the terrible nervous strain imposed by five years of war and the inevitable reaction.

Why Keep Away Brains?

"But why," said Miss Leach, "keep all immigrants to the domestic servant class? Why keep away brains?"

She appealed to Canada to extend a welcome to the women of brains and culture, who would be able to do creative work.

Reviewing the magnificent work done by the women of England in the agricultural industry, she suggested that steps be taken to create a demand for women on the land in Canada, not with the idea of sending a woman alone on a farm, but under some scheme of community or co-operative settlement.

The establishment of industrial villages throughout the Dominion would help to solve the housing problem, be an ideal way of providing work for the right class of emigrant and at the same time would mean the utilization of natural resources, in the opinion of Miss Leach.

At present, declared the speaker, Canada is largely a jumping-off place for the better class of emigrant who, finding no opportunity for work in the Dominion, crosses the line and finds an outlet for his energies in the United States—to Canada's loss.

Miss Leach also briefly touched upon the question of Oriental immigration, characterizing as wicked and unnatural the laws which forbade the Oriental to bring his wife into this country.

Evils of Vivisection.

The second speaker of the afternoon was Miss Dora Kito, who gave a stirring talk on the evils of vivisection.

Graphically describing some of the tortures to which animals are subjected in the name of scientific investigation, Miss Kito declared that the Rockefeller Institute and McGill University were the greatest offenders in this respect, reading a number of affidavits from actual witnesses of the experiments on animals to substantiate her charges.

Further investigation of the alleged practices will be undertaken by the Council before any definite action is taken.

The third speaker of the afternoon was the Rev. Ernest Thomas, who explained the situation in connection with the coming referendum on Prohibition or the Government control of alcoholic liquors.

Mr. Thomas was the guest of honor at a luncheon given at the hotel at some length from the pamphlet issued by the British Liquor Control Board to support his statements.

Business included the hearing of a report from Miss Crease on the Girls' Club, which will receive over \$150 as its share of the proceeds of the regent's garden fête at Lady Crease's residence.

The club is now full to overflowing and the resources of the home are being sorely taxed to cope with the need. Before adjourning the meeting passed a standing vote of sympathy to Mrs. Frank Adams in the loss of her husband.

Col. and Mrs. James Peters, with their small daughter, who have been spending some months with the former's parents, Col. and Mrs. J. Peters, at Esquimalt, left on Sunday for Vancouver, where they will remain for a few days before leaving for England.

Col. and Mrs. J. Peters, who were in the city and are staying with Mrs. E. P. Girdwood, 313 Kingston Street, Miss Leach returned to Canada from overseas twelve months ago and has been taking a course at Toronto University in the interim.

Mr. and Mrs. J. Mack, 1007 Third Avenue, Vancouver, announce the engagement of their eldest daughter, Myrtle, to Mr. James Eldon Lane, of Victoria, son of Mr. and Mrs. Robert Lane, 1007 Third Avenue, Vancouver.

The marriage will take place the latter part of this month.

Mrs. C. J. McCarthy, and Mrs. L. H. Bigelow, Honolulu, Mr. and Mrs. F. G. Gurnier, Seattle, Mr. and Mrs. Jacobs and Mr. L. H. Cragg, of

Vancouver, are among the recent arrivals at the Brentwood Hotel.

Admiral Sir Edmund and Lady Pears, accompanied by Lieutenant Pears, have arrived in Victoria, and are guests at the Empress Hotel.

Lady Pears is a native daughter of Vancouver Island.

E. Walker, Mrs. Halley and Alfred Clark, of Ganges; Mrs. Wilburton Taylor and Miss Taylor and Mrs. Inverarity, of Duncan, are guests at the Strathcona Hotel.

Miss Alberta M. Macfarlane, formerly of Summerside, P.E.I., has been appointed Domestic Science Instructor on the staff of the Provincial Normal School.

Mrs. H. H. McIntosh, of Vancouver, came over to Vancouver Island during the week-end and is the guest of Col. and Mrs. Frank Leach, Cobble Hill.

P. L. A. Jones, of Chemainus; J. D. Halley, and Master Halley, of Salt Spring Island, are registered at the Strathcona Hotel.

James Dunbar and G. H. Cowan, of Honolulu, and Col. V. De Trafford, of Shanghai, are registered at the Strathcona Hotel.

Mr. and Mrs. Elliott, J. R. Gordon and C. Gordon are new arrivals

from Edmonton, staying at the Dominion Hotel.

Mrs. J. J. Johnston, of McPherson Avenue, has as her guests Misses Gretta Beach and Miss Hirsch, of Vancouver.

Mrs. Muir and Miss Opal Muir have returned to Victoria after visiting Miss Harrison in Vancouver.

Dr. and Mrs. E. J. R. Holder, of Kadina, South Australia, are guests at the Empress Hotel.

Mr. and Mrs. Sharpe, of Ganges, are among yesterday's arrivals at the Dominion Hotel.

Misses M. A. Cramer and M. McEwan, of Washington, are guests at the Empress Hotel.

Mr. and Mrs. Ashforth and family, of Winnipeg, are registered at the Dominion Hotel.

W. H. Truesdale and Mrs. Truesdale, of Duncan, are registered at the Dominion Hotel.

Ernest D. Cox and Mrs. Cox, of Metehosin, are staying at the Dominion Hotel.

Mr. and Mrs. J. Wilson, of London, England, are staying at the Empress Hotel.

TO LAUNCH DRIVE FOR JUNIOR RED CROSS IN PROVINCE

Mrs. Harold Fleming Organizing Campaign; To Work For Needy Children

In an endeavor to interest the children of the Province in such Red Cross instructions and activities as have an educational and social value, the Junior Red Cross drive is shortly to be launched throughout the Province.

The campaign will be opened in Victoria on Monday to this end, a display of the work of Junior Red Cross branches in other parts of the Dominion will be on view at the B.C. Agricultural Association's Fair at the Willows throughout the whole of next week.

Aims and Objects.

Mrs. Harold Fleming, chairman of the Victoria and District Branch of the Red Cross, is organizing the drive in a timely and effective way, she explained the objects and aims of the Junior Red Cross. The aims are:

One—To enlist the services of children and young people on behalf of suffering childhood and the needs of those children less fortunately situated than themselves, especially children of soldiers or those suffering as a result of the Great War.

Two—To furnish to children and young people a useful and healthy outlet for their energies, and definite purposes for which their talents may be employed.

Three—Through Junior branches to make Red Cross service applicable generally to the health and social needs of children and young people.

The Junior Red Cross was established in Alberta recently with such success that there are now about fourteen flourishing branches throughout the province. The children have entered wholeheartedly into the work, and there is every reason to believe that the movement should meet with equal support and success in British Columbia.

For Sick Destitute Children.

The work of the local branches when formed, will include the study

of the needs of all cases of neglected, destitute or sick children with a view to recommending what the Red Cross can do to alleviate their condition.

The raising of funds for such work among the needy children of the province or for child welfare, as may be decided upon by the Provincial Branch of the Red Cross, will also form part of the programme, and may take the form of the maintenance of a ward for sick and destitute children.

Co-operation with hospitals and homes for the entertainment of sick or destitute children such as providing flowers, delicacies, games and holiday treats; provision of articles suitable for shut in children such as magazines, games and toys; the making of simple garments for use for sick and destitute children, will also be features of the programme.

Suggested handicraft for the children will include the making by the boys of splints, back-rests, crutches and bed-tables for the use of children, while the girls will employ their abilities in the making of bed covers, night gowns, tray cloths and babies' layettes. The membership in the Junior branches will be limited to boys and girls under eighteen years of age.

Schools Co-operating.

As the matter is one of primary interest to schoolchildren, the co-operation of the authorities and teachers will be sought. Already the Board of School Trustees has shown its interest by appointing Trustee Mrs. Coady-Johnson to the committee for organization purposes.

At the fair at the Willows, Mrs. Harold D. Fleming will be in charge of a booth, for which space has kindly been promised by one of the leading firms, and at which will be displayed the work of members of the Junior Red Cross of Alberta.

Reference to this work has been made in the following letter from Mrs. Coady-Johnson, president of the Junior Red Cross Division of Alberta, to Mrs. Fleming: "The little dress, romper and overalls, are made out of personal property bags; the boys' night shirts are cut from pyjamas and hospital suits which were cut but not sewn up at the time the armistice was signed. We have utilized all such materials by cutting the garments down for children. I am also sending a sample of the scrap-books and paper doll outfits made by one of our branches, composed of fourteen children under ten years of age. These attracted the attention of the public at our industrial fair and I was able to personally explain the work to about six hundred people."

Muggins to Help.

A feature of particular interest in this Junior Red Cross booth at the fair will be the presence of "Muggins," whose body has been preserved and mounted in lifelike attitude. It seems particularly fitting that this famous canine who did such magnificent work for the Red Cross during his lifetime should continue dutifully to appeal on behalf of the suffering children of the province.

AMID DIM LIGHTS AT
CABARET CARNIVAL

With nothing less than a real old-fashioned carnival of flying serpentine and colored paper hats and general jollification is the Criterion going to open its Fall and Winter season to-morrow night.

Activities will start at 9 o'clock. Louis Glazen announced to-day. The carnival will be neither fancy nor formal dress.

The Criterion's 1920-21 orchestra has been installed, and is ready for the carnival.

The feature of the new orchestra is the one-string violin, which gives emotional interpretations to jazz and straight waltz music. The one-string violin is one of the great dancing hits of 1920. It is said to be even more effective in stimulating dancing than the saxophone.

For the carnival the interior of the Criterion has been reinterior.

Plans are being made by Louis Glazen to hold Wednesday night's affair as the first of a series of high carnival nights running through the winter months at the Criterion.

Colored paper hats will be issued free to carnival guests by the waitresses as they bring the orders.

The Cabaret lights will be dimmed for many of the carnival dance numbers.

AGRICULTURAL
EXHIBITION IN
SAANICH OPENEDFine Display of Products at
Agricultural Society's
Fall Show

The fifty-second show of the North and South Saanich Agricultural Society was opened this afternoon at Saanichton. A large number of Saanich residents crowded the exhibition hall during the most of the afternoon to look over the numerous exhibits.

The exhibition is arranged this year so as to give the public ample accommodation and to set the exhibits off to the best advantage. As there are no ward exhibits all products are arranged on three long tables. On one of these are displayed the tree fruits, on another women's products, such as cakes and other culinary dainties and on the third a fine collection of vegetables. All one side of the hall is occupied with a fine display arranged by the Sidney Experimental Station whose exhibits show how new types of fruit are developed and also the remarkable results which open air grape growing may achieve in Saanich. In the balcony are displayed women's needlework, amateur photography, girls' cookery and similar classes of exhibits. In the balcony, too, is a fine collection of products of Saanich school gardens.

Exhibitors at the show and authorities state that the exhibition is being held rather too early in the year. On this account, they claim, the vegetables have not reached maturity. The exhibits, they say, would be much better in three weeks' time.

SUNDAY SCHOOL
HEADS TO SPEAK
HERE TO-NIGHT

“Modern Tendencies in the Sunday School” is the theme of addresses to be delivered at the First Presbyterian Church to-night by Dr. J. C. Robertson, of Toronto, General Secretary of the Young People's Societies of the Presbyterian Church of Canada, and the Rev. Frank Langford, who holds the same position for the General Board of the Methodist Church. These gentlemen are in the city at present on their way to Tokyo, Japan, where they will attend the World's Sunday School Convention. The meeting, which will commence at eight o'clock, will be open to all teachers, officers and people interested in Sunday School work.

TO REFLECT IN
JAIL ON HIS PASTFormer Spokane High School
Boy Gets Two More Sen-
tences From Judge

Only a short time ago the young man who appeared before Judge Lampman to-day as E. J. Dolan was known to his companions in the Spokane High School as A. J. Kelly.

The judge asked him if he had anything to say, after he had pleaded guilty to passing forged cheques for \$75 on O. H. Dorman and William Duncan on August 24.

“I think that possibly fifteen months in Okalla jail is quite enough to give me plenty of time to reflect on what has passed,” said the Washington high school boy.

It was explained to the court that Kelly is at present a prisoner in the Okalla jail. Magistrate Jay two weeks ago sent him there for fifteen months on two charges, which were tried in the Police Court. The other two charges had to be sent up to Judge Lampman.

“I would like to ask the leniency of the court,” Kelly pleaded.

“He is only twenty-two years of age,” said J. S. Brandon, who was prosecuting. “I think that rather he is more foolish than criminal. It is rather a case more for regret than punishment.”

“His home is in Juneau, Alaska, where his father and mother are still living.”

“I sentence you to one year from this date on each of the charges, to run concurrently with the terms already imposed,” said the judge.

PROVINCE NOW FREE
OF ALL FOREST FIREOfficials of Department Urge
Caution During Early
Hunting Days

British Columbia is free of forest fires and no more outbreaks are expected. This is the essence of a report submitted to the Hon. T. D. Pattullo, Minister of Lands, by the Forest Branch of the Department this morning. Heavy rains in practically every locality have been of great assistance to the fire-fighters, particularly in the dry belt, where some of the more recent blazes were causing the Department a good deal of concern.

So complete has been the climatic change, however, that snow is reported on the higher levels of the Kamloops Forest District.

Statistics covering the fire season to date indicate that there have been no less than 25 distinct fires reported to the Chief Forester. To fight and extinguish them it has cost the Province \$182,408. The Vancouver District, which includes Vancouver Island, holds the record for number, with 299 fires, which involved an expenditure of \$45,500. Nelson comes next with 248 fires at a cost to the Province of \$65,000. In the Cranbrook area ninety-eight fires were reported upon whose fighting \$40,000 were expended. Kamloops district was responsible for seventy-five fires, and the spending of \$15,000. In the Vernon region there were seventy-six fires and it took labor to the value of \$4,000 to fight them. Fifty-six fires in the Prince Rupert locality absorbed \$458; fifty in the Cariboo took \$600, and \$1,850 was spent in fighting seventy-nine outbreaks in the Prince George region.

While the department does not expect any further trouble this season the officials of the Forest Branch urge upon the general public the necessity to exercise every possible caution during the early days of the hunting season in view of the fact that a warm day usually sets in about the middle of the present month. The vegetation, it is pointed out, is not in such a condition as to withstand a week's hot sun without reviving the fire hazard. Campers, therefore, are asked to take every precaution.

After giving a short account of his own personal experience with the introduction of Government sale in Saskatchewan, and the decision of the people there after eighteen months trial to change, Mr. Thomas read a very interesting letter from the Hon. George Langley, Minister of Municipal Affairs, Saskatchewan, on the subject.

Mr. Thomas then dealt exhaustively with the drug evil and also with the effect of the domestic consumption of alcohol.

Dr. Sipprell, the next speaker urged all the workers to study the facts, to state them fairly and once the public were aware of the issue, there would be no doubt about the verdict, he stated.

The meeting closed after the secretary had suggested a number of practical ways in which those present could help the campaign.

On motion a vote of thanks was tendered to the daily press.

ROTARY CLUB TO
CONSIDER BOYS'
WORK IN VICTORIA

Plans for boys' work in Victoria will be considered at the weekly luncheon of the Rotary Club on Thursday. For several months now the Club's Boys' Work Committee has been considering how the Rotarians could best help the boys of the city and at Thursday's meeting it will report upon its work, making recommendations regarding future activities. The Club considers that the boys' work to be undertaken is one of the most important efforts ever made by Victoria Rotary.

In Finland a housewife buys a new broom every morning. This is a necessary extravagance, since she sweeps her whole house every day, and the broom she uses is just a bundle of fresh green birch leaves, whose natural dampness lifts up the dust.

PULP TIMBER

Premier Has a Call From a Representative of a Group of Interested Capitalists

Premier Oliver received a call from a Vancouver man this morning, who stated that he was asked to obtain information upon British Columbia's pulp timber for the benefit of a group of capitalists interested in the subject. Mr. Oliver directed his steps accordingly in order that he might be placed in possession of all the information he desires.

LAYMAN'S VIEW OF
MANNIX EPISODEResident of Sydney N.S.W.,
Here, Speaks of Australia-
Asian Catholics

The problem of religious controversy, which has proved so troublesome when associated with other political differences in Canada and South Africa, is likely to play a larger part in Australian politics, according to G. H. Blakemore, of Sydney, New South Wales. Mr. Blakemore has just arrived from Australia and is making a brief stay in Victoria.

The intervention in the case of Archbishop Mannix has focused the attention of the whole world on Australian Catholic affairs in their relation to the Irish question. Mr. Blakemore states that the situation is a peculiar one in Australia, in that the Irish Catholics and other Catholics in the Commonwealth, with about 22 per cent. of the population, have far more than their share of influence in Parliament, the civil service and other bodies. In New South Wales, for instance, political management, he states, has resulted in about 45 per cent. of the members being Catholics in the Assembly, or at least twice as many as their numerical strength in the population would justify. In some departments of the civil service 60 per cent. are Catholics in that state, he says.

“We say to the Irishman in Australia that he is bringing a wild world controversy into a new country—and we do not want it to be necessary to fight the old issues in a new country.” “It looks,” states Blakemore, “as if the sectarian issue, however, will have to be fought out in the Commonwealth as it has in older countries.”

PROHIBITION MEETING

Supporters Hear Addresses From
Rev. E. Thomas and Dr. W. J.
Sipprell

The gathering of prohibition workers held in St. Andrew's Presbyterian Church last night was most enthusiastic. Despite the unfavorable weather, the lecture room of the church was crowded, many having to stand throughout the meeting.

Harold Beckwith, president of the association, was in the chair, and Dr. W. Leslie Clay opened the meeting with a brief prayer.

The Rev. E. Thomas dealt with the present issue before the people, which he urged was very different from the issue of 1916. The present issue was a choice between a continuance of prohibition under the amended act, or a backward step to Government control and sale for beverage purposes.

The amended Prohibition Act was effective and should have a chance inasmuch as the amount of liquor sold at the Government stores had been reduced from \$167,000 in March to \$15,500 in April, Mr. Thomas stated.

After giving a short account of his own personal experience with the introduction of Government sale in Saskatchewan, and the decision of the people there after eighteen months trial to change, Mr. Thomas read a very interesting letter from the Hon. George Langley, Minister of Municipal Affairs, Saskatchewan, on the subject.

Mr. Thomas then dealt exhaustively with the drug evil and also with the effect of the domestic consumption of alcohol.

Dr. Sipprell, the next speaker urged all the workers to study the facts, to state them fairly and once the public were aware of the issue, there would be no doubt about the verdict, he stated.

The meeting closed after the secretary had suggested a number of practical ways in which those present could help the campaign.

On motion a vote of thanks was tendered to the daily press.

You Can Depend On It

EVERY drop of Imperial Polarine is 100% lubrication. It spreads a protecting cushion of oil between all wearing parts, making each part function smoothly and reducing wear to a minimum.

It has exactly the right body—forms a perfect piston-to-cylinder seal, maintains compression, conserves power and saves fuel. It does not break down or run thin under extreme heat.

Imperial Polarine burns clean, reduces carbon deposits to a minimum and assures long life, smooth running and reliability to your motor at all times, under all conditions.

There is an Imperial Polarine grade for every motor need, from crank shaft to differential. Consult the Imperial Polarine Chart of Recommendations for the correct grade to use in your car—it is on display wherever Imperial Polarine is sold.

Sold in one and four gallon sealed cans, steel kegs, half-barrels and barrels, by dealers everywhere in Canada. Buy in large containers and save money.

RUSSIA CARRIED MANY FOR VICTORIA

Large Number Landed Here
From Oriental Ports
Yesterday

Including a list of over 350 saloon and a large number of cabin passengers, the C. P. O. S. Empress of Russia, Captain S. Robinson, which touched here yesterday morning, carried a large number of people for this port. Many of those landing here are to make their way east after a short stay, but the majority are to become residents of this island.

Those landing here included: Mrs. R. T. Allen, M. Benjamin, E. F. Benson and Mrs. Benson, D. M. Bigger and Mrs. Bigger, G. C. Bennett, N. B. Coffman and Mrs. Coffman, W. A. Cuddy, J. R. Durr, D. R. Elyson, J. Fleming, Miss M. E. Forbis, Miss J. Fry, E. P. Goodrich and Mrs. Goodrich, C. W. Hamilton, G. D. Han-some, Mrs. M. Hawthorne and Miss D. Hawthorne, J. R. Hobbouse, R. F. Irwin and Mrs. Irwin, C. V. U. Jay, C. M. Johnson, L. C. Jones, Madame A. F. Klinger and Miss Klinger, Mr. and Mrs. A. E. Larnet, B. H. Lee, Mrs. A. N. Lawrence and family, Mrs. N. J. Jordan, and Miss E. J. Muirer, W. D. McCallum, A. B. McKinstry, A. L. Mills, S. Morris, E. P. E. L. Potter, G. T. Ramsay, Mrs. I. Richardson, H. Schlee, Mrs. M. W. Shoffer, N. Thomson, S. F. Trelease, C. J. Weed and family, G. A. West and family, D. B. Witherham, J. N. Wisner, G. Barclay, W. J. Barous, A. Blumen-thal and family, G. A. Brownell, J. Camm, C. M. Davies, C. N. De Traf-ford, A. P. Hill, J. D. Kearney, T. H. Mills, R. Rappin, P. S. Reinsch, Miss E. K. M. Sherif and Miss G. Wren-tmore. In addition to the above the usual contingent of Chinese debarked at this port, many of them coolies bound for the sugar plantations in the South.

Manslaughter in Second Degree.
Cutting corns with a razor is dan-gerous and useless. The only remedy is Putnam's Corn Extractor, which removes corns and warts in one day. Because painless and safe, use only "Putnam's." 25c. per bottle at all dealers.

IXION MAKES PORT

The Blue Funnel liner Ixion made port yesterday shortly before 3 p. m., after arrival at quarantine shortly after eleven o'clock. The Ixion carried some 300 Chinese, including 353 for disembarkation here. The majority of the Chinese are bound for the sugar plantations of southern points. The freighter carried a fair cargo of general merchandise, in-cluding some 7,000 tons for Seattle.

Japanese wives of the middle and lower classes frequently blacken their teeth to please a jealous husband.

No. 4087 THE PROMISE

WAS HERE WITH KARLUK PARTY

Captain Wilkins, M.C., Will
Be Second in Command
New Polar Expedition

When the Stefansson party was outfitting here in 1913 many people made the acquaintance of Captain George H. Wilkins, M.C. (bar) who was a photographer with the expedi-tion. Capt. Wilkins was then an experienced man in his particular occupation, having been through the Balkan war, but since that time he has added new adventures and ex-periences to his record.

Capt. Wilkins had the good fortune to escape the accident which befell the Karluk and in which so many of the leading men of the Canadian Arctic Expedition party perished. He stayed with the expedition until its disbandment.

In 1917, after a brief visit to his family in Adelaide, South Australia, he went to England, and joined the Flying Corps at the Liverpool Camp. Shortly after his arrival he was sent to France as a photographer for the Military History Department, and since that time he has visited the battlefields at Gallipoli, Palestine and the whole of the western front.

His new position, which he has now proceeded to England to take up, is to organize the scientific staff of the British Imperial Antarctic Ex-pedition, which will leave at an early date for the Ross Sea. Captain Wil-kins will accompany the party as second in command.

GIRL LOSES LIFE IN RESCUING SISTER

New York, Sept. 14.—Eva Beattie, a Scottish immigrant girl, yesterday lost her life when attempting to rescue from the surf her younger sister, who had waded beyond her depth.

Of the higher institutions of learning in Canada, Queen's University easily takes the lead in the number of its women graduates.

Prominent Official Is Promoted

OSBORNE SCOTT
Osborne Scott, who is now general passenger agent in Vancouver of the Canadian National Railways.

CUNARD SERVICE NOT POSSIBLE THIS YEAR

Shortage of Material For
Ship Construction Halts
Pacific Service

Vancouver, Sept. 14.—That the trans-Pacific passenger service out of Vancouver of the Cunard Steam-ship Line, to be operated in con-nection with the Canadian Na-tional Railways, would not be begun this year was the prediction of C. A. Whitlock, general agent in Van-couver for the Cunard, Anchor and Anchor-Donaldson lines, who arrived back in Vancouver yesterday after a visit to New York headquarters of the line.

The reason that there is little hope that Cunard boats will be running out of Vancouver for some months yet, following the announcement of the arrangement between the line and the Government railways, is that the company is barely able to keep up with the tremendous busi-ness developed on the Atlantic since the war. The company expected to have thirteen new steamers in com-mission in the fall of the year, but had not worked out as expected owing to the shortages of material and industrial troubles in the United Kingdom.

Number four hull at the Choberg yards, the first of the four wooden barquentines for the Victoria Ship-owners, Ltd., is now nearing the final stages of completion. Work on the third ship is being slightly de-layed on scheduled time owing to the delay in obtaining some of the large framing pieces required. The balance of the framing is expected daily, having been on the way here for the last three weeks. The fourth ship of the programme of wooden barquentines is to be laid as soon as the first vessel takes the water.

The barquentine Alta, on the way at Messrs. Yarrows, Esquimalt, is having her damaged bow plates re-novated. The work of repairing the Alta is expected to be completed by the latter end of this week. The oil tanker El Lobo is still alongside the jetty undergoing a "number three" survey.

HAWAII MARU HERE WITH JAPANESE

Expected Liner Will Continue
to Vancouver After Dis-
charging at Tacoma

The Osaka Shosen Kaisha liner Hawaii Maru docked at the Outer Wharf this morning at 10.30 o'clock, after arrival at William Head in the early morning. On board were 35 Japanese for this port and 108 for the United States. The liner carried a good cargo, mostly for Sound ports, with some 157 tons for heren. The Vancouver consignments will not be put off here as the vessel is expected to be ordered to Vancouver direct after discharging at Tacoma, her home port on the Pacific. The Hawaii Maru will touch here again outbound for the Orient on September 28.

MARINE NOTES.

The government service vessel Estevan will leave towards the end of this week on an inspection tour of the Gulf Islands lighthouses, and will be several days on the round trip.

Captain C. H. Nicholson, manager of the G. T. P. Steamship Service, reached Victoria yesterday, and to-day was in consultation with C. F. Earle, of the local office. Mr. Nicholson has been confirmed in his ap-pointment in charge of the floating fleet of the G. T. P. service, with his office in Vancouver. Confidence in the new order of things and optimism in the future of the service was the keynote sounded by Mr. Nicholson during his visit to-day.

THE ISLAND PRINCESS, MEETING HEAVY WEATHER OFF TRIAL ISLAND, WAS FORCED TO PUT BACK, LEAV- ING THIS MORNING ON HER REGULAR TOUR OF THE GULF ISLANDS.

The B. C. Coast service Charmer left last night on a special run to Vancouver with the contingent of Chinese from the Blue Funnel liner Ixion. The Charmer remains in Van-couver to-day.

Work is being pressed at the Har-bor Marine plant this week in an effort to get the Canadian Traveler into the water by the end of the week. An announcement has yet been made as to the sponsor, but a decision is pending; it is understood.

PROTECTION PRINCIPLE ATTACKED AND DEFEND- ED BEFORE TARIFF BOARD

(Continued from page 4.)

other country, thus enabling those who are working on the land to buy their implements at the lowest possible price, would mean increased production from the land, and an economic benefit to the whole Dominion. The excessive overhead charges which the protective system has placed upon Canadian agricul-ture, also bears upon such other basic industries as lumbering and mining. What has been said in relation to the larger industry of agriculture, may also be applied to the industries of mining, lumbering and fishing. The necessity of facilitating the work of primary production in the basic industries of this country, cannot be over emphasized at the present time. We are fully aware of the large national debt which confronts the Canadian taxpayers and to some extent, at least, we appreciate the burden of bearing the interest charges upon that debt and reducing the principal from year to year. To maintain an increasing volume of ex-ports would be one wholesale method of dealing with this question of national indebtedness. The agricul-tural industry of Canada to-day is responsible for maintaining year in and year out the vast bulk of the ports which are shown in this country's record of trade and commerce. It is most essential that this record should not only be maintained but increased if possible. It cannot be increased to any appreciable degree unless the fiscal policy of the Dominion in the future is founded upon the truth that the economy and financial welfare of Canada is to be worked out not so much in our factory towns and cities, as in our set-tled and un settled rural districts. This suggestion of a conference on taxation is made, because at the present time, the direct method of taxation upon incomes and lands has been adopted by Dominion Provinces and municipalities, and as a consequence there is a serious handi-cap being placed upon the principle of direct taxation which we recom-mend in large measures in the farmers' platform. The farmers' platform recommends as sources of revenue, the graduated inheritance tax on large estates, the graduated income tax on the profits of cor-porations and a direct tax on all un-improved value of land including all natural resources. The direct tax on personal incomes, together with the income tax on profits, at least, should be levied by the Dominion Government, and it is here that we wish to lay strong emphasis. The administration of the Federal income tax in this country has not been efficient since it was introduced as a new feature of federal taxation some five years ago.

It is not unfair to say that the in-come tax, if thoroughly and effec-tively applied in this country, ought to yield a revenue of at least two hundred million dollars per annum at the present time. It is already been said it is not the desire of those who are represented by the farmers' platform, to bring about any im-mediate drastic changes in the customs tariff or the fiscal policy of this country which would en-danger the business interests of the country as a whole, but it is sub-mitted with all sincerity and earnest-ness that it is possible to so establish a national policy for this country that it will rest upon the principle of direct taxation as adopted in the methods here suggested, rather than upon the principle of tariff pro-tection. By reducing the tariff im-mediately and providing for the re-duction in revenue which might follow, by a more rigid enforcement of the income taxes, the Federal Government of Canada would have taken the first step towards imple-menting the recommendations which are put forth by the organized farmers of Canada through the Canadian Council of Agriculture.

LABOR CONGRESS IN CONVENTION

(Continued from page 1.)
later than Sunday next. Resolutions already concurred in include one from Toronto Typographical Union No. 91 to urge the Dominion Gov-ernment to amend the copyright law to give Canadian printers equal pro-tection to that afforded the printers of the United States by legisla-tion at the same time safeguarding the interests of Canadian authors and composers.
One from Hamilton Typographical Union No. 129 to support the Cana-dian newspapers in their efforts to secure an adequate supply of news-print, meet with the approval of the convention, although several dele-gates from the letter-carriers object-ed to the latter part of the resolu-tion who intimated that a 25 per cent reduction of 50 per cent in the postal rate for newspapers and periodicals was sufficient. They objected on the ground that any reduction in postal rates meant reduction in their sal-aries.
The feature of the opening day of convention of the Trades and Labor Congress of Canada was an address at the afternoon session by Hon. Ar-thur Meighen, Premier of Canada.

DR. TOLMIE GUEST OF KIWANIS CLUB

(Continued from page 1.)
"Island of Wonders."
"I have always held that here on the Island we have some of the most wonderful opportunities in all the Dominion. We have the Ocean Docks at Ogden point, constructed at an expenditure of \$2,000,000, and in connection I was very glad to hear that there was a movement on foot to establish a lumber collection and distribution point at those docks. "There has been some adverse criticism of the Canadian National Railways in connection, but I think when you realize that all the funds of that system have been de-voted to the development and re-vo-lution of the setting-chain, it will lessen some of the comment that the Ocean Docks have not been develop-ed right away. I think there is no doubt that will come in time, and in the meantime it is up to us in Vic-toria to prepare for the time when the Ocean Docks will be in use. Ex-pansion of trade to the Orient co-operation of business interests and

BRIEF LOCALS

Teacher Resigns.—Miss Rose Jones, of the Cloverdale School teaching staff, last night submitted her resignation to the Saanich School Board. It was accepted.

Saanich School Holiday.—The Saanich School Board last night decided to grant a special holiday Wednesday in order that the pupils may attend the Saanich Fair and school sports.

Moose Drive and Dance.—An event of interest will take place on Wednesday evening, when the Loyal Order of Moose will hold their first social gathering, taking the form of a whist drive and dance. A large attendance is promised, and the committee are doing all in its power to ensure a very enjoyable evening.

Tea at St. John's School Room.—The Women's Auxiliary to the G. W. V. A. will hold a silver tea to-morrow afternoon at St. John's school room. There will be several stalls and the affair will be formally opened by the Rev. F. A. P. Chadwick.

Pass Survey By-Law.—The Esquimalt Council last night put through its final reading a by-law to authorize the permanent marking of a block of streets to the south of Esquimalt Road, opposite the area recently surveyed by Bateman-Hutchinson, the surveyor.

Gas Pressure Stepped.—The supply of gas having greatly improved, the Victoria Gas Company this morning started releasing full pressure during the urgent hours of the day. It is hoped that in a few days the pressure will be normal at all times but at present the hours of service at full strength will be from 7 to 9 a.m.; 11 to 1 at midday, and 5 to 7 o'clock in the evening.

Want Life-Saving Course.—The Saanich School Trustees last night endorsed the principle of having life-saving and swimming taught pupils in the schools. The matter was brought up by a letter from the South Saanich Women's Institute. The Trustees instructed Secretary Gray to suggest that the proposal be brought up next Spring for the attention of the 1921 School Board.

Legion of Frontiersmen.—The usual monthly meeting of the Legion of Frontiersmen will be held this evening at 8 o'clock in the Army and Navy Veterans' Room, Hamley Building, instead of Room 505, Belmont Block, when the O. C., Major S. Rowlinson (L.R.), will give an address on "Experiences in the Yukon." All frontiersmen are cordially invited to be present.

Military School Here.—An infantry school of instruction for officers and N.C.O.'s is to start in November and continue till March, with a possibility of courses being arranged in both Victoria and Vancouver. Major L. C. Gooder, D.S.O., general staff officer for the military district, will be in charge of the school, aided by officers and instructors of experience, all being experts in their particular branches.

Veterans Are Critical.—The action of the Board of Trade, in apologizing to the Hon. C. C. Ballantyne for the attitude of the Harbor Marine delegation which waited upon him in the Board room recently, met with criticism at last night's meeting of the Grand Army of United Veterans. Confidence in the delegates was strongly voiced, and the action of the Board in holding what were styled secret meetings was deplored.

Exceeded Estimates.—The Saanich School Board were last night informed that the installation of sanitary conveniences at the Strawberry Vale school had cost in excess of the estimate made by ex-Trustee Rayner. While admitting that the work had not been unduly expensive in view of the rise in cost of materials, Trustee Holloway stated that he would in future support the letting of such work to contractors, so that the final cost will be known in advance.

Yesterday's Storm.—Yesterday's rain was made doubly unpleasant by the high wind which accompanied it, and which at its height attained a velocity of forty-six miles an hour, according to the report made by Superintendent Napier Denison of the Gonzales Observatory this morning. The high wind started about 3.30 a.m. when it was blowing at thirty-five miles per hour; between ten o'clock and eleven o'clock it increased to forty miles, and from twelve noon until one o'clock the rate was forty-one miles per hour. For short periods it reached its maximum of forty-six miles. The storm centre was located off the coast of Vancouver Island, and the high wind

AS PLEASANT TO TAKE AS SUGAR

CONTAIN NO NARCOTICS

THOROUGH IN THEIR WORK

EFFICIENT AND PROMPT TO ACT

was felt as far south as California, the barometer stood at 30.1, which is a very low for this time of year. No damage of any consequence was reported.

Dominion Life Underwriters Meet.—The regular monthly meeting of the Dominion Life Underwriters' Association was held at the Dominion Hotel yesterday, presided by the usual luncheon. The association listened to a very able address by Dr. Paul Higgins on the relationship of the medical examiner to the company agent and the assured. James Hudson gave a short talk on the recent meeting of the Dominion Life Underwriters of Canada at Ottawa. There was a full attendance of the life insurance men of the city. A. Dendoff, of Nanaimo, was also present.

Married To-Day.—At the First Presbyterian Church this morning in the presence of a number of friends, Miss Jean Irene Hyatt became the bride of John Alexander Stewart, a native of Aberdeen, where his parents reside. The bride is a daughter of Mr. and Mrs. Mark Hyatt, Rev. J. Gibson Inker officiated, and Hector MacPherson gave the bride away. She carried a bouquet of roses and maiden hair ferns, and wore a brown travelling dress. Mr. and Mrs. Stewart left for a honeymoon tour of the island. They will reside at Grevelston, where Mr. Stewart is provincial assessor.

Appointed to Buildings Committee.—The Oldfield was last night appointed a member of the buildings and ground committee of the Board of Saanich-School Trustees.

Expensive Wood Hauling.—The Saanich School Board were surprised last night, when informed that haulage of wood by motor truck would have to be based on the trucks earning a minimum of 22 cents daily. The Board owns a large amount of firewood which it was intended to convey to the various schools.

Objected to Promotion System.—Trustee Holloway, of the Saanich School Board, last night that he objected, on principle, to promotion of pupils to the High School without examination. "It does not give the trustees a fair idea of conditions," he said.

Teachers' Salaries.—The Saanich School Trustees last night received a report showing the total of teachers' salaries for September to be \$5,325 divided among 49 teachers, distributed in 14 schools.

Claim Desk.—The Small, —Chairman Coates last night reported to the Saanich School Board that complaints had been received as to the size of the school at Strathgarry. School parents, having claimed that the equipment is too small for the larger children and had had physical effect. The Board's health officer will be asked to investigate.

No One-Room Schools.—The Saanich School Board last night refused to consider additional one-room schools as being opposed to the principle of consolidation. The matter was brought up by a petition from the Burnside, Burnside Park, Glyn and neighboring districts for a one-room school. The Strathgarry school was claimed to be too far for the children to walk in bad weather.

Ready for Election.—Conservatives of British Columbia do not care how soon the Government is asked to resign. Premier Oliver last night that he was ready to go to San Francisco, where he declares he found great dissatisfaction with the Government for failing to complete the first unit of the Pacific Highway which commenced more than a year ago. Farmer-locals have been passing resolutions against the Government claiming that they will be shoo off from the city markets during the winter.

To Raise Car Speed.—Street car drivers yesterday afternoon asked Premier Oliver to change the speed limits of street cars which were set at eight miles an hour in the business district and ten miles outside. The drivers stated that the present limits are too slow and that the maximum including stops. In accident cases there may be the question of motormen obeying the law. The Premier said that the question would be taken up with experts of the railway department and amendments made to permit cars to travel faster without breaking the law.

HON. W. A. WATT'S NOW ON COAST

Returning to Australia to Place His Case Before Electors

Hon. W. A. Watt, late Treasurer of the Commonwealth of Australia, and former Premier of Victoria, has arrived in Vancouver. It is understood he will come on to Victoria before leaving on the Niagara for home.

Mr. Watt went to England to conduct negotiations of an important character with the Imperial Government on behalf of the Australian Federal Government. During the negotiations differences arose between Mr. Watt and the Prime Minister of Australia, Mr. William Hughes. Each and all of the opinion that his authority as a representative of the Australian Government was interfered with by his colleagues carrying on direct negotiations with the Imperial Government "over his head." As a result of the dispute Mr. Watt resigned. Mr. Watt had stated that he will take an early opportunity of laying his side of the case before the people of Australia.

To the Vancouver Province Mr. Watt explained that he was returning to his native land with the full intention of giving the public the facts as he saw them.

"Since the break occurred some weeks ago between myself and the Prime Minister of Australia, I have consistently refused to discuss public affairs or give newspaper interviews both in Great Britain and elsewhere," he said. "When I reach Australia I shall be prepared to lay the facts of the dispute before the people of the Australian public, so that they may judge my actions for themselves."

Mr. Watt, who is yet only 48 years of age, has been in public life in Australia for twenty-three years.

EMPTY BISCUIT TINS REVEALED STOWAWAY BOYS

Romantic Story on Board Empress of Russia Yesterday

Among the 1,093 passengers of the Empress of Russia, which docked here yesterday, was Oscar L. Hyatt, a stowaway. He was taken on to Vancouver.

He is a nineteen-year-old lad from El Paso, Tex., who is on the last leg of a journey around the world. He is returning home like the prodigal, with no pet and few clothes. He worked his way overland to New York, shipped on a vessel which left him in Copenhagen, and shipped from there on a steamer that was expected to go to San Francisco. But the ship turned back at Borneo, after a side trip to Yokohama. Young Hyatt left at the latter port. He had intended merely to work his passage.

Then he smuggled himself aboard the Empress of Russia in company with another wanderer, R. Allen, of New York, who was a stranded sailor from the United States Shipping board ship Elton. The vessel had sailed from port while her lost seaman was counting the crimson lights of the great Japanese seaport.

The two young men, Allen is about twenty-one years old, hid themselves in one of the Russia's lifeboats and subsisted for seven days on biscuits stolen from the kitchen and water from the emergency tank in the lifeboat. Finally the steady loss of biscuits resulted in a search of the ship and the discovery of the stowaways. The immigration authorities have wired the parents of both for instructions. The adventurers in the meantime are being held on board.

TO BECOME CANADIAN

Eugene Francois, the French chef and grand maître de cuisine at the Empress Hotel, announced to-day to Judge Lampan's court his desire of becoming a Canadian. He said he has been living in Victoria for the last eleven years and that now he felt more at home here than in his native France.

M. Francois told the court he was born in Trouhau, Canton de St. Jean de Laune, Department of Cote d'Or, on July 13, 1870. He took up cooking as a profession and then came to Canada in May, 1909, by way of New York and Montreal.

Dawald Barton, registrar of naturalizations, announced that M. Francois will appear for public hearing in open court on January 3, 1921.

ITINERARY GIVEN OF RAILWAY COMMISSION

Ottawa, Sept. 14.—(Canadian Press)—The Board of Railway Commissioners will hold the first sitting of the western tour in Calgary on October 12. The following morning it will sit at Saskatoon. The remainder of the itinerary is as follows:

Edmonton, October 1; Prince George, October 5; Prince Rupert, October 6; Victoria, October 11; Vancouver, October 12; Newcom, October 14; Nelson, October 18; Calgary, October 20; Medicine Hat, October 22; Regina, October 23; Winnipeg, October 25; Fort William, October 27. The application of the express companies for increased rates is to be taken up at different points, as well as other questions which are set down for hearing.

CITY'S POLICY IS WAIT-AND-SEE

Civic Authorities Await Move In Bailey Case; Matter May Be Ended

The city has adopted a policy of "wait-and-see" in the Bailey appropriation case, it was learned at the City Hall to-day. Whether the case has come to an end, or whether the Cameron Investments and Securities Company will bring another lawsuit against the city remains to be seen.

Recently the Cameron interests offered to release the famous Bailey property for a price much lower than was asked formerly. In a letter to the Council on the subject it was stated that no further litigation was desired and that a settlement out of court would be satisfactory. The Council held a secret meeting to consider the whole matter and the civic authorities now do not intend to buy the property for the price offered by the Cameron interests.

The Mayor and aldermen have understood for some time that the Cameron interests intended to bring a new lawsuit against the city unless the Bailey land was purchased. The civic authorities have no intimation of what action, if any, the Cameron interests intend to take. They consider, however, that the city's legal position is absolutely safe and feel quite enough on the case and on the Bailey land.

If any new developments in the case are to take place they must occur in the near future. If the Cameron interests intend to bring a new suit, it is stated, they must file notice of their intention within the next few weeks. Meantime the city is awaiting developments.

ENTERTAINING "MACS" CARRY THE DAY

Kiwanians Delighted With Entertainment By Members From Land of Thistle

With an encouraging address from the Hon. S. T. Tolmie as the "piece de resistance," to-day's luncheon of the Kiwanis Club brought a decided scoring for the "Macs and Mies" who were the entertainment committee. At the opening of the luncheon, headed by Piper MacDonald in full Highland dress, the "Macs" of the club paraded around the tables led by Fred McGregor. Each and all of the "Macs" had assumed Scottish headgear, while some featured the sportive Glenraggy, many were attired in the more seasonable Balmoral. "Rube" McMorran brought up the rear of some twenty of the "Macs" who were responsible for the entertainment.

At the luncheon Scottish songs and ballads formed the musical entertainment, while even the menu showed a decided leaning to the Land of the Thistle. The originality of design and attractively disguised ability the menu was a masterpiece in itself. Opening with sliced Wm. McGregor, the diners passed on to McIntosh broth, served in McMorran grease cups; McLean stew, with Macfarlane cold dumplings; McCarty oatmeal muffins, McGavin pulsed potatoes, McIntyre Scotch kale, McDonald cold pudding, with McFadden marmalade "fill-in," closing with Bob McGinnis schoolboy sauce and McDowell coffee. The singing of Auld Lang Syne ended the entertainment of the day, with a clearly established record achieved for the "Macs."

The entertainment prize was won by Mr. Robertson, who was successful in the single draw.

The Kiwanians to-day were for the first time the "name-plate" badges, giving the name and occupation of the individual "members." Two of these are purchased by each member, one for use at home and one for retention at the club. Several guests were introduced to the members, including some Vancouver Kiwanians.

BRITAIN MAY SELL SHIPS TO GERMANY

Forty Prize Vessels May Be Sold Back to Bosch If Law Permits

Washington, Sept. 14.—Great Britain has under consideration the sale of forty former German liners and a number of cargo vessels to their former owners, according to advices received by the American government from London. The sale of the ships, which were awarded the British by the reparation commission practically has been decided upon, these advices say, but definite action has been held up until existing laws can be modified so as to permit of the sale of the craft to the Germans.

Some officials of the American government profess to see in this plan an attempt to hinder the development of the American merchant marine, but Chairman Benson, of the Shipping Board, declared that immediate acquisition of a considerable tonnage by the Germans would in no way meet the purpose of the agreement between the American Ship and Commerce Corporation, and the Hamburg-American Line for the opening of former German trade routes to American shipping.

ARCHBISHOP FARTHING ON LAMBETH CONFERENCE

Montreal, Sept. 14.—Archbishop Farming, speaking last night on the outstanding features of the Lambeth Conference, which he recently at-

GERHARD HEINTZMAN

You Can Buy a Good Piano at One Half Its Former Price

Notice, please, that we underline the word "good." The pianos we offer this week are instruments of sterling quality and known value, and they have been very slightly used.

In addition, these pianos and player-pianos have been tuned, regulated and polished, and some of them it would be difficult to distinguish from new instruments.

These instruments may now be purchased at approximately one-half their selling price when new. To-day's prices of similar instruments are considerably higher.

We will take your piano as part payment and allow liberal terms on the balance. Come in to-day—such splendid bargains are worth a special effort.

WEEBICHER BROS.

WESTERN CANADA'S LARGEST MUSIC HOUSE

1121 Government Street and 607 View Street.

VICTORIA CITY, 1920 TAX SALE

Of Improved and Unimproved City Property will be held on

TUESDAY, OCTOBER 5TH, 1920

at 10 a.m., in the Council Chambers, City Hall.

At the above time I will proceed to sell by public auction all real property in arrears for 1919 and previous years, together with all properties in default on which taxes are being paid on the instalment plan. In order to prevent real property from being sold, it will be necessary before that date to pay.

CLASS "A"

Those who are paying arrears on the ten-yearly payment plan must have paid each instalment due, including that falling due on the 15th September of the present year, together with interest at 6%; and all taxes, General and Local Improvement, for the years 1919 and 1920.

CLASS "B"

Those who owe arrears of taxes, either General or Local Improvement, for the years 1919 or any previous year must pay in either of the following ways:

1. All arrears to the end of 1919 and interest at 6%.
2. Or all arrears to the end of December, 1919, in which case 10% of all General Taxes will be deducted, and the interest on same will be cut in half.
3. Or ten per cent. will be deducted from the General Taxes and accrued interest thereon if one tenth of the remainder, together with interest at six per cent. from the 1st January last is paid. Nine years will then be given to pay the balance (one tenth each year). Interest on these payments will be charged at six per cent. instead of eight per cent.

Tax Notices for 1920, showing all payments in arrears, due and accruing due have been sent out according to law.

Strive your Tax Notice to me at once and get statement of exact amount you will require to pay under your choice of the above settlement plans.

Investors and others may secure lists of properties liable to be sold at this Tax Sale at my office any time after September 17th, 1920.

IMPORTANT

Owners not liable to have their properties sold in this 1920 Tax Sale but who owe arrears for 1919 only, or any previous year or years, may settle on either of the last two plans. These are money-saving settlements and will avoid danger of next year's Tax Sale, but must be taken advantage of before October 5th. On October 4th these options close.

The upset price includes all taxes to end of 1920. Indefinite time given for redemption, but if not redeemed, if redeemed, 5% interest given to purchaser on amount paid.

EDWIN C. SMITH,
 City Hall, Victoria, B. C., August 25th, 1920.
 Treasurer and Collector.

MAN FIVE DAYS IN OPEN DORY

Halifax, N. S., Sept. 14.—"It is all in a fisherman's life," said Fred Wilson, of Wakefield, Mass., regarding the five days he spent on the Atlantic in a dory, without food, during which time he drifted and showed about seventy-five miles, and was picked up by one of the life saving crews on Sable Island. Wilson was brought here by the Lady Laurier when she returned from Sable Island, and leaves for home to-morrow afternoon.

DECLINE IN EXCHANGE

New York, Sept. 14.—Exchange on London continued to decline to-day, although rates on Paris and other European markets, Germany excepted, recovered slightly.

An low as 3.45% was quoted for British demand bills in the first hour, a decline of 1 1/2 to the pound from yesterday's lowest quotation. Before noon, however, the price rallied to 3.44%. Canadian dollars declined in sympathy with sterling, the discount rate being quoted at 10 5/8 per cent.

McKenzie Ave. School Grounds.—The Saanich school trustees last night adopted Architect H. Savage's recommendation, that a portion of McKenzie Avenue playground, made slippery by excavated clay from the basement, should be covered with a sinder dressing. Wide pathways will be laid.

Hunters All Ready for Start of Game Season To Open on Saturday

Large Number of Sportsmen, Headed by Mayor Porter, To Invade Woods, But Expect Light Bags of Blue Grouse; Pheasant and Quail Season Later Is Chief Centre of Hope.

Counting every hour before the opening of the game season, Victoria sportsmen are all in readiness now to start into the woods early Saturday morning in quest of deer and blue grouse.

The question which is worrying most of them, however, is: "While we know there probably will be plenty of deer, are there going to be any grouse?" The answers which most observers and authorities give are not encouraging; not a bit cheerful, in fact. Woodsmen who have been watching the game all Summer and

sportsmen who have taken the trouble to make reconnoitering expeditions into the woods of late report a pronounced scarcity of birds. There is no open season on willow grouse this year, of course, and the blues, it is stated, have been seen only in very small numbers. The same condition, observers state, prevails in practically all parts of the island which usually are visited by the hunters.

To the west of Victoria and all the way up the Island there are few grouse to be had. Indeed, most sportsmen expect only small bags of blues on the opening day, or any day for that matter.

Just the same a big bunch of sportsmen is going to try its luck Saturday. The enthusiasts which will leave the city early Saturday morning for the first glorious day in the woods will be headed by Mayor Porter, one of the best known and most experienced of island sportsmen. His Worship shoots only birds, but, on account of his constant journeys of observation about the woods during the season, he does not expect to come home heavily laden with game. "The birds are very scarce," the Mayor declared when discussing the matter the other day, and his statement may be taken as being founded on close observation and a long knowledge of wild bird life.

When the City Hall closes Saturday afternoon civic department heads intend to follow the Mayor's example. City Clerk E. W. Bradley and City Treasurer E. C. Smith both are planning to invade the woods as soon as the season opens.

While the biggest wave of hunters

probably will leave the city Saturday the best shooting will not be available until October 16 when the bar goes up on pheasants and quail. It is reported that plenty of pheasants are ready for shooting, while the quail season probably will be the best in several years. Sanich Peninsula and some of the Gulf Islands—where the pheasants, residents claim, have become a perfect pest—will be the mecca of pheasant shooters. Enthusiasts, who have visited the districts west of the city, on the other hand report an abundance of quail. It was the fact that the quail have increased so much in numbers that caused the Game Board to open the season from October 16 to December 15, while the pheasant season, opening on October 16, will not close until November 29.

Announcement that officials of the Lord's Day Alliance are planning to have Sunday shooting abolished in British Columbia has caused a wave of interest, not to say protest, among island sportsmen. Abolition of Sunday shooting, they claim, would mean a large majority of sportsmen abolition of shooting altogether, as it is possible only for a small number to get out into the woods during the week. They are not worrying over the matter much, however, as they are confident that no law restricting shooting on Sunday will be enacted.

AMERICANS DEFEAT NORWEGIAN STARS

Christiania, Sept. 14.—The United States athletes who participated in the Olympic contests at Antwerp defeated a team of Norwegian athletes here yesterday.

FOOTBALLERS ELECT A GOVERNING BOARD

Vancouver, Sept. 14.—In accordance with the constitution of the B. C. Football Association, leagues in the Lower Mainland district have elected their representatives, who shall form the district executive for the government of the game on the mainland. They will hear appeals from the decisions of local leagues and should their decision not be satisfactory to the aggrieved parties the right of appeal to the parent body is left open.

Messrs. L. O. Macdonald and G. McKenzie will represent the Vancouver and District League; Messrs. F. Willoughby and E. Johnston will represent the Greater Vancouver League; and Mr. B. Hamilton the Fraser Valley League. These men met in a short session on Saturday last, when they unanimously agreed to send a call to J. Harriet to act as their chairman and to Archie Sinclair to be their secretary.

Jack Johnson Sentenced To One Year and a Day; Must Pay Fine of \$1000

Chicago, Sept. 14.—Jack Johnson, former world's heavyweight champion, was sentenced to one year and a day in Leavenworth penitentiary and fined \$1000 to-day by Federal Judge George A. Carpenter for violation of the Mann Act.

Sentence of "Lil Arthur," as Jack Johnson is called, brings to an end a case which has been pending for several years now. Johnson fled from the United States several years ago following the laying of charges against him under the Mann Act. Where he spent the time between his flight and his return this year is not generally known. He was reported to be in Spain for a while after his fight with Jess Willard in Cuba, where he lost his championship crown, and then the athletic world lost sight of him until he bobbed up in Mexico a few months back and then surrendered to United States authorities. During his absence from the United States Johnson always protested his innocence.

BUSINESS MEN TO PLAY TO-MORROW

Rotarians and Kiwanians Matched in Final Cricket Game

With Kiwanians determined to avenge their previous defeat and Rotarians equally confident of repeating their victory, cricket teams representing the Kiwanis and Rotary Clubs will meet for their final match of the season at the Jubilee Hospital grounds to-morrow afternoon.

The captains of the rival teams both report that they have collected aggregations which cannot be beaten. The Rotary team, it must be admitted, however, will be badly weakened by the absence of Rotarian Lester Patrick, who just now is scouting round the East for new hockey stars. At the last game, Lester was about three-fifths of the Rotary team, and though he played a kind of baseball both at bat and in the field, he accounted for a staggering total of runs and also nipped the Kiwanians' hopes in the bud by catching out their captain, Dean Quinlan.

On account of Lester's absence and the fact that his team has been strengthened considerably, the Dean has little doubt of the result. As a matter of fact, he feels that even with Lester playing the Kiwanians' chances would be excellent. Whatever the outcome of the game it will be witnessed by a large number of business men, as the rival teams represent two of the most prominent business men's organizations in the city. A great deal of interest and good natured rivalry has been provoked by the contest, the proceeds of which will help to swell the Kiwanis Club's hospital fund.

FAST HORSES ARE SHIPPED TO CITY

More Animals Here to Race in Exhibition Meet at Willows.

Vancouver, Sept. 14.—Brighouse Park, the scene of two race meetings here this Summer, is almost deserted now, even though it is only ten days since more than eight score thoroughbreds were stabled there. About twenty of the horses are in Spokane, sixty at Hastings Park for Vancouver's exhibition, and a similar number have already departed for Victoria to participate in the seven days' race meeting, which will be staged September 21-28 in connection with the Provincial Fair.

A number of the thoroughbreds were shipped from Vancouver last evening to the Willows, and included in the list some of the fastest horses seen in this part of the country this season. The majority of them came from Alberta and Saskatchewan. Among those which left last night are:

Min McLeod, Lady Edmont, Amador Valley, Nowonder, Percival Knight, Debra, Lady Ashton, Underbrush, Tye, Miss Sovereign, Tiajan, Sir Robert, Minnie H. Quinan, and others.

POSTPONE JUNIOR TENIS CONTESTS

On account of the continued wet weather, the boys' and girls' junior tennis championship games will not be played until further notice. It is planned to stage the contests when the courts, which just now are in a very sorry condition, dry out. Notice of the games will be given in the press.

START TO DRAW UP FOOTBALL SCHEDULE

Plans for the coming football season will be considered at a meeting of the Victoria and District Football Association at 8 o'clock to-night in the United Service Club. It will be available football officials will commence the work of drawing up the season's schedules. Final entries for the intermediate league will be received at the meeting, officials announce.

SWEDÉ WINS OLYMPIC HORSEMANSHIP EVENTS

Antwerp, Sept. 13.—The final award in the individual horsemanship events in connection with the Olympic Games was made in favor of Dr. Morner, of Sweden, who was first with 1,775 points out of a possible 2,000 points.

SAYS CRICKETERS WILL IGNORE RULING

Amateur Official's Intention to Probe Cricketers' Standing Called a Joke

Victoria cricketers whose professional standing, as a result of the game which they played here against the professional baseball team recently, is to be considered by the local board of the B. C. Amateur Athletic Union, will pay little heed to the rulings of that body. P. C. Payne, President of the Victoria and District Cricket Association, declared to-day: "The cricketers feel that the intention of the amateur authorities to consider the standing of some of the players is more of a joke than anything, but, on the other hand, we don't consider it sportswomanlike." Mr. Payne said when discussing the matter with The Times this morning: "Personally," Mr. Payne remarked, "I am trying, and have been trying to get all lines of sport to ignore the B. C. Amateur Athletic Union, and I say that I am succeeding very well. It's time that the B. C. A. A. U. came out openly on such matters as the recent game between the cricketers and the professional baseball players. Before the game the amateur authorities did not say a word to us about the possible results. Why didn't they warn the cricketers that their standing might be questioned if they played instead of waiting until afterwards? What really is needed, as a matter of fact, I think, is a Victoria and District Amateur Union instead of the present governing body.

"At present there are 240 cricket players in the game and they certainly don't intend to be ruled by three or four men. They won't bother themselves about any ruling that the B. C. A. A. U. may make."

TO HOLD ROWING RACE TO-MORROW

J.B.A.A. to Stage First Heat Flumerfelt Cup Contest Over Harbor Course

Feeling that the season is too advanced for regattas now, the James Bay Athletic Association has decided not to hold its club regatta which was postponed Saturday on account of the rain. However, the four-oared races for the Flumerfelt Cup will be pulled off to-morrow afternoon at 5 o'clock over the harbor course. Two heats will be staged to-morrow and the final heats on Thursday at 5 o'clock. Your crew will compete: Day's Travis, Wickson's and Maclellan's. A close race is expected.

QUOIT TOURNAMENT TO BE HELD SATURDAY

The quoit tournament which was to have been held last Saturday at the Royal Athletic Park will be staged next Saturday. Entries may be made on the field up to 2 o'clock. All players who intend to enter the league should send their names to the secretary not later than October 1, in order that the schedule may be drawn up by that date.

District Executives Formed
To Govern Competitions
For McBride Shield

Vancouver, Sept. 14.—At the last general meeting of the British Columbia Provincial Football Association, the chief business on the agenda was the adoption of the constitution. This had already been gone over carefully by the executive council, and that they had done their work efficiently was evidenced by the fact that practically no changes were arrived at. The chief change which has been made is that the affiliation fee, which was formerly \$1 per club, has been raised to \$2.50 per club, it being pointed out that the parent body would hardly be able even to pay its affiliation to the Dominion Football Association, far less carry on their duties during the season. In addition to the constitution, there was also drawn up a set of cup competition rules, as well as a special set of rules governing the arrangements for the McBride Shield, which is emblematic of the provincial championship. All of these will be put together and Secretary Morton was authorized to make the necessary arrangements to have a

supply printed for distribution throughout the Province.

Bar Professionals.

The Vancouver and District League asked for a ruling regarding the eligibility of professionals in other sports playing football as amateurs, and it was decided to have the secretary secure a ruling from the D.F.A. It was also agreed, however, that until such time as this ruling is received, that the association would adopt the definition of an amateur as laid down in years past by former provincial associations. This will have an important bearing on the composition of some of the playing units in this district, particularly Westminster United, who are very desirous of lining up George Feeney, Hattie Stoddard, Dodge Sinclair, who have been starring for the famous Salmonbelly lacrosse team this Summer and who are professionals. There is also Young of North Vancouver, who has boxed as a pro. This ruling bars them from participation in football, unless the D.F.A. rule otherwise.

Form District Executives.

The Province has been divided into five districts for the purpose of jurisdiction, these being at present (1) upper island; (2) lower island; (3) Northern British Columbia; (4) interior; (5) lower mainland. Each of these districts will be governed by a district executive, who will be the first body of appeal after the league in which cases originally arise. They will also deal with players guilty of ungentlemanly conduct and other such business, the right being given clubs of ultimate appeal to the council proper of the parent body. These district bodies will also handle the cup competition which is emblematic of the championship of their own district, the

winners of each being eligible to compete for the McBride Shield.

ELK SWIMMERS TO HOLD DANCE

The Elks Swimming Club will hold its regular monthly dance Wednesday evening commencing at 9 o'clock. Perry's three-piece orchestra will be in attendance and a good time is assured to all. The Elks Swimming Club dances have been a success in the past and a record crowd is promised to-morrow evening. The members of the club have only the dance committee to thank for the success of their past dances. The committee consists of Chairman Gus Brown, Secretary Jack Woods, and Messrs. Brooks, Weight and Macdonald. A meeting of the special committee will be held at the dance hall at 8 o'clock.

MINTO CUP GAME IN VANCOUVER, WEDNESDAY

Vancouver, Sept. 14.—The big Minto Cup lacrosse game which was postponed Saturday on account of the rain will be played Wednesday afternoon. The match will be the replay of the game of May 15. If Vancouver wins it will be even with New Westminster again. If New Westminster is successful the cup will remain in the Royal City. Harry Godfrey, former Vancouver player and captain of the local Minto Cup winners of 1911, will be referee, while Weiss Gray, a former defence man of the old Salmonbellies and mayor of the Royal City for many years, will be judge of play.

MCGILL STARTING THE RUGBY SEASON

Montreal, Sept. 14.—The McGill University rugby squad starts practice to-morrow with the arrival in the city of Frank Shaughnessy. The majority of the members of the champion team of a year ago will be back in uniform.

LADIES PLAY FOR U.S. CHAMPIONSHIP

Philadelphia, Sept. 14.—In the second round of the annual women's lawn tennis tournament for the championship of the United States to-day, Mrs. R. M. Leachman, California, defeated Miss Eleanor Cottingham, Baltimore, 4-1, 6-0. Mrs. Molla Bjurstedt Mallory, New York, defeated Miss Phyllis Walsh, Philadelphia, 6-0, 6-3. Miss Marion Zinderstein, Boston, defeated Mrs. E. J. Wiener Harrison, New York, 6-1, 6-0.

Philadelphia, Sept. 14.—All of the outstanding favorites came through the opening rounds of the thirty-third national women's lawn tennis championships, which began yesterday on the turf courts of the Philadelphia Cricket Club.

The feature of the days was the showing of Miss Helen Baker, one of the California entries, who eliminated Corbin Gould, of St. Louis, middle western champion, with the loss of only one game.

Miss Marion Zinderstein, of Boston, and Mrs. Molla Bjurstedt Mallory, of New York, both won comparatively easy matches.

KING ALFONSO'S HORSE WINS RACE

San Sebastian, Spain, Sept. 13.—King Alfonso's great racer Brabant to-day won the Grand Prize event at a distance of approximately a mile and a half. Fifteen horses started. Jockey Lyle piloted Brabant home, and the king led the winner back to the stables. The purse for the race was 100,000 pesetas.

CHAMPION MAT MAN LOSES TO LONDOS

San Francisco, Sept. 14.—Ad Santel, light heavyweight wrestling champion, last night lost his match with Jim Londos two falls in three. The match was at catch weights and the title was not involved. Santel weighed about 187 and Londos about 192, it was said.

SHOOT OUT OF MOTORS.

Seattle, Sept. 14.—Times have changed in Alaska from the days when trappers munched over the snow fields to hunt for game. Citizens of Fairbanks are hunting caribou by automobile. Every recent arrival of automobiles are coming into their own in the territory, and the bureau is advised that "the days of real sport" around the Northern Alaska town are featured by motoring out to the herd where thousands of caribou are leisurely grazing, bagging a few animals, dumping the carcasses into the tanks of the car and driving back with the winter's meat supply.

The caribou are so numerous and tame that it is no feat to go out and get what meat is desired in a few minutes, it is said.

BOWLING WINS FOR BRITISHERS

Philadelphia, Sept. 13.—Sensational bowling by Captain Fowler and Major Cartwright, of the Inconito team of British cricketers, enabled the visitors to defeat the All-Philadelphia eleven to-day 55 to 42.

TO HOLD SHOOT.

The Equilmart Gun Club will hold a shoot to-morrow afternoon at 2.30 at the club grounds.

ENGLISH FOOTBALL TIE

London, Sept. 14.—Blackpool and Clapton tied yesterday, two all, in a second league football fixture.

Every rope used in the British naval service, from heaving line to hawser, wherever used on board ship or in dockyard, has woven into one of its strands, for purposes of identification, a colored thread

One of the chief sources of the additional value offered in Goodyear Tires is the savings effected through Goodyear's system of distribution.

It is a system made possible by the enormous sale of Goodyear Tires.

To several thousand selected Canadian dealers Goodyear sells tires direct, and the money that would go as profit to jobber is largely saved.

Shipments to distributing points are so large that we make the saving of carload freight rates. Orders from dealers are large enough to reduce clerical expense to a small factor.

Such efficiency in practice and the resulting increased business has reduced expense-per-tire to a minimum.

The saving-per-tire between factory and dealer is approximately \$2.00.

In total this saving represents hundreds of thousands of dollars turned back into the product to heighten quality and keep prices down.

So a 30 x 3 1/2 Goodyear All-weather Tread Tire with Goodyear Heavy Tourist Tube costs you to-day only \$31.05. Six years ago it cost you \$30.45. An increase of only 1.9 per cent., while most commodities and labor increased over 100 per cent.

And Goodyear Service Station Dealers help you get all the mileage that is built into the tires.

The resulting low cost-per-mile of Goodyear Tires has built the largest tire sales in the world.

The Goodyear Tire & Rubber Co. of Canada, Limited

GOOD YEAR

MADE IN CANADA

WHAT IS PROPOSED BY NEW RAILWAY

North-South Railway in Australia Would Open Valuable Area

In connection with the Canadian Press dispatch Monday that an offer to build a transcontinental railway in Central Australia linking Oodnadatta in South Australia, with Pine Creek, in the Northern Territory, has been made by an Australian capitalist and his partner, it will be of interest to state that a promise was given in Melbourne in July 30 by the Prime Minister (Mr. Hughes) to a deputation of South Australian Senators and members of the House of Representatives that the Federal Minister would take into early consideration a proposal for the construction of the first stage of the North-South Railway from Oodnadatta, 320 miles north.

The deputation pointed out that at present the railway was not paying for axle grease, and urged that it would never become a paying line until it was extended to the rich pastoral, agricultural and mineral-bearing country in the MacDonnell Ranges. The development of the area would be an aid to immigration, while the construction of the line itself would also absorb a large number of immigrants. Under present conditions it was impossible to develop

the country because it was 300 miles from railway communication.

The deputation stated that the country was well watered, and well adapted to the conservation of water. It contained almost every known mineral, including rare substances, such as bismuth, mica and wolfram, which had been found in payable quantities, and one gold mine had treated more than 2,000 tons of ore for an average return of about 1 1/2 oz. to the ton. The strategic importance of the line was also emphasized.

The Prime Minister, while recalling the Ministry's pledge to proceed with the construction of the railway, reminded the deputation of the Commonwealth's overwhelming financial obligations. Nevertheless, he said, a policy of immigration must walk hand in hand with a policy of development. Then from the standpoint of national defence it was clear that Australians were living in a fool's paradise. There was hanging in the air a dark shadow of a possible invasion from the east, and it was a most significant map, it showed that a comparative narrow fringe of country round the coast of the Commonwealth was equal to the whole of Europe, excluding Russia, and that within that narrow fringe, which had an abundant rainfall, was room for 300,000,000 of people.

At least they would not be allowed to hold Australia unless they filled it, and they had no right to hold it unless they did so. Unless they could make their claim good the world would take it from them. Even given an adequate population, means of transit were essential to national defence. The whole matter came down to a question of finance. He would lay their representation before the Ministry, and it would see what could be done. Even if only a small portion of the line were built

it would be an earnest of the intention of the Administration to go on.

He realized that the railway was a great national work, and he would at an earliest possible moment declare what the Ministry was prepared to do.

In Norway there are practically no literates.

TO GIVE ADDRESS ON "OUR SAILORS"

An entertaining address on the subject of "Our Sailors" will be given at the Empress Hotel to-morrow afternoon at 3.30, by the Rev. W. D. Spence. The meeting will be held in the private dining room and will be

under the auspices of the Ladies Guild of the Connaught Seamen's Institute. Mrs. Spence will render several vocal solos during the afternoon.

In view of Victoria's maritime position, the subject of Mr. Spence's lecture should be of unusual interest to the general public and it is hoped that all who are interested in the welfare of sailors will attend.

ZAM-BUK

This illustrates but one of the many uses to which ZAM-BUK, the great herbal balm, is daily put. Accidents will happen, especially where there are children. Mothers should never be without ZAM-BUK. ZAM-BUK is the best "First Aid." Its strong antiseptic properties kill all germs, preventing blood-poisoning and inflammation. Its rich herbal essences quickly ease pain and build up new healthy tissue. ZAM-BUK is entirely different from all other ointments. It is purely herbal and contains no poisonous coloring matter. Take no substitute. See the name on every box before paying.

ZAM-BUK HEALS SEVERE CUT

Mrs. J. E. Bigsforth of Carmichael, Sask., writes: "My little son cut the end of his finger. As it was such a severe cut, I was going to take him to a doctor, but in the meantime to ease the pain, I applied some ZAM-BUK. This stopped the bleeding and gave him such relief that he ceased crying and seemed quite at ease. I therefore decided to see if ZAM-BUK would heal the wound. Next day I replaced the dressing, and continued to dose each day, using nothing but ZAM-BUK. Complete cure resulted."

CUTTING BY THREAD.

In some materials, chiffon, linen and so on, it is easy to pull a thread when flounces or bandings are to be cut, but some materials are very trying things to handle in this manner; the threads break most exasperatingly and your patience is exhausted long before the many strips for ruffles and pleatings have been cut off. Try lashing a strong reading glass to the arm of a chair or holding your fabric under the glass. You will find it the easiest thing in the world to follow the thread and it will not be necessary to pull out a thread as a guide. Lay the reading glass at right angles to the chair arm, the glass projecting inward, over your lap; and then lasso the handle of the glass firmly with ribbon or tape, wound round and round tied securely.

In the city of Brussels an exhibition of snow statuary is given every winter by the art students, who transform one of the public parks into a natural gallery, and display specimens of their work which are really remarkable.

The playing-cards of the fourteenth century differed materially from the pack in use to-day. The Venetian pack, for example, consisted of seventy-eight cards—twenty-two of them marked with emblems of various kinds, and fifty-six with numerals, divided into four suits of fourteen cards each.

"Daddy," piped the little darling, "is the sea a mile deep?"

Daddy, who was also an editor, glanced up irritably from a huge pile of manuscripts. "I don't know," he snapped.

"The little darling looked disappointed. A little later he asked: "Is the moon really made of cheese, daddy?"

Again came the response: "I don't know."

Another look of disappointment, another silence, and another question:

"Do cannibals use postage stamps?"

No less savage than the cannibals themselves was the distracted manuscript reader as he roared for the third time: "I don't know!"

"Well, I say, daddy," exclaimed the youthful inquirer, very seriously, "who made you an editor?"

In addition to being the first woman in Massachusetts to run for a State office, Mrs. Alice E. Cram, of Boston, who is the choice of the Bay State Democrats for State Auditor, has the distinction of having been the first woman general contractor in the United States.

In some parts of West Africa the girls have long engagements. On the day of their birth they are betrothed to a baby boy a trifle older than themselves, and at the age of twenty they are married. The girls know no other way of getting a husband, and so they are quite happy and satisfied.

MATRONS
Despite the strain of social life and household duties, retain their youthful beauty and enjoy the best of health. Thank to—

ALTERNATIVE PLANS FOR MANUAL ARTS

Saanich School Board Fails
To Decide On Issue Of
Manual Training

Trustees Holloway and Oldfield, in support of the expenditure of school funds on manual training and transportation of pupils to training centres, provided an unexpected interest to last night's session of the Saanich School Board, however, by decision on the matter was deferred until Tuesday.

The Proposal.

The matter was brought up when the Board considered two alternative plans of operation of the manual training classes, submitted by Instructor Hunter. One scheme proposed a weekly class in each main centre, to include the pupils in the senior third and junior fourth classes, and the second provided for fortnightly instruction to the senior and junior fourth and senior and junior third reader pupils. The first schedule would include 130 pupils while the second would give half day lessons to 346 children. The first scheme would call for transportation of children from the smaller schools to the larger centres.

Trustee Holloway said that the schedules had been drafted as a result of the decision to revise the manual training course "from the bottom up."

In the recent election the attitude of the farmers' party was not necessarily against the teaching of manual training, rather that the study was a non-essential, and there was need of a reduction in the cost, he said. He claimed that he had always considered that manual training was a fairly good thing, though a three months' course to a lad of fourteen was of more value.

Transportation of pupils was a necessity if manual training is to be taught, he admitted, but thought that there was no necessity for such an expense in the case of pupils living within two miles of a centre.

Trustee Diggon.

Trustee Diggon expressed surprise that Trustees Holloway and Oldfield should be in favor of "such trifles as transportation." He reminded the Board that the election had in great measure been fought on the value of the manual training courses, as compared with the cost. Trustee Holloway asked the ratepayers which they preferred, trifles or more sanitary conveniences in the schools, manual training or more accommodation, unessentials or less taxation. "Now he comes here and advocates the continuance of manual training, more than that, he would spend the ratepayers money on such extravagances as transporting children to centres where they may absorb that unacquired knowledge," Trustee Diggon said.

"I have heard the voice of the people, they do not want to pay for unessentials, they have said so with no uncertain voice, and I am going to see that their wishes are respected. I must oppose this proposal, and I am surprised that Trustee Holloway should take such a stand after his appeals for drastic economy have been supported by the ratepayers," Mr. Diggon said.

"Playing Politics."

Chairman Coates averred that the stand of the Farmers' Party was merely playing politics. He claimed that Mr. Holloway was not qualified, with one year's acquaintance with the work of the Board, to claim to be an expert on the value of manual training.

Trustee Holloway said that he was not opposed to manual training, but to the system practised in Saanich, which had been, to his mind, too expensive, and needing drastic revision. Chairman Coates asserted: "Your revision has had no effect other than to wreck the great work done by such past trustees as George McGregor, Reeve Watson and a score of other careful and deep thinking men. You have botched up the work of many years."

Trustee Diggon said: "I'd as soon see the course abolished as wrecked. I'm for economy and spending the savings on better school accommodation."

Finally the proposed weekly schedule was laid over until next Tuesday's meeting, when transportation points will also be considered.

Rinso

this wonderful new form of soap for
the family washing—

Not a cake soap—
Not a washing powder—
But a remarkable new soap product
in fine granules!

Just the thing you have been waiting for to take the labor and the hardship out of wash day. Just the thing you need now more than ever to save your clothes the relentless rub, rub, rubbing of the wash board. Just the thing you need to make spotlessly white the hard-to-wash clothes—the aprons, dish-towels, children's rompers, etc.—without boiling and toiling.

RINSO'S fine granules dissolve instantly and stir up into a rich suds.

AT NIGHT—
Soak the clothes with Rinso.
MORNING—
Rinse them out—that's all.

Rinso awaits you at your grocer's—to-day!

Start using RINSO this next Monday. RINSO is a new form of soap. Not a cake soap. Not a "washing powder." A wonderful new soap product—in fine granules. These pure, cleansing granules dissolve instantly into a rich suds. There is not a bit of solid soap to stick tight to the fabric and injure it. There are no harsh chemicals to "eat" the fabric—to destroy the colors. Just a rich, purifying suds—as harmless to the clothes as pure water itself.

A New Idea of Washing

Labor saving! Time saving! Clothes saving! With RINSO you soak the clothes over-night or for three hours in the morning. You then take them out and rinse them. They will be spotlessly, gleaming clean. Only the extremely soiled things—bad spots—need a light rubbing between your hands right in the RINSO suds and they too will be shining clean.

The rich RINSO suds have loosened all the dirt, while the clothes soaked.

Only one package of RINSO and your week's wash will be done better and easier than it was ever done before.

Get that package to-day—RINSO
—at your grocer's.

DOMINION

If you ever see a girl on a magazine cover who looks strikingly like Anna Q. Nilsson, the pretty screen player, do not marvel at the resemblance. For the girl will undoubtedly be Miss Nilsson herself. Several years ago, when she first arrived in this country from Sweden, Miss Nilsson caught the artistic eye of Penrhyn Stanlaw, the illustrator, and he engaged her as a model. At the time he was looking for a young woman with a sympathetic face, as he expressed it. Miss Nilsson solved his problem.

That was before motion pictures had the attraction for feminine beauty that they have today. Even now, when Miss Nilsson has attained prominence in the screen world and plays such important roles as that of the attractive heroine of Robert W. Chambers' "The Fighting Chance," at the Dominion Theatre, she still poses occasionally for the magazine artists.

Another of her hobbies is looking after strange kiddies. Out in Los Angeles she is the Princess Charming for a whole orphan asylum and living with her is a little girl whom she adopted in Sweden after the child had lost both of its parents in a fire.

PANTAGES

Eugene O'Brien, appearing in the Selznick picture, "A Fool and His Money," adapted from George Barr McCutcheon's story of the same name is the attraction at Pantages Theatre to-day.

O'Brien appears in the role of an American "best-selling" author who goes to the Swiss Tyrol for "atmosphere" for his new novel. He buys an ancient castle, and presently goes through more interesting experiences himself than he had counted on for even the hero of his coming novel. There are ghosts and alluring women and villainous noblemen, and an admixture of comedy, romance and exciting adventures, presented with the glamorous McCutcheon touch.

COLUMBIA

Photographic ingenuity was employed effectively for a time by the German military chiefs in sustaining the Teutonic civilian morale and the first exposure of the Prussian tricks executed on the field and later upon the unsuspecting public, is to receive expert presentation in this country through the medium of Allen Holubar's forthcoming pictorial drama of the great war—"The Heart of Humanity." How every German army corps carried with it into the fray its cameraman is shown in this heart-stirring story. Pictures were taken of the German advances or pseudo-offensives, of the prisoners captured by the Hun patrols—magnified by every known cinematographic device of the "mighty arm of kaiser"—evidenced in kaiserliche frightfulness and of the bombing of Belgian and French towns and cathedrals—to Germans the symbol of the termination of the dominion of God in "enemy country." Thus Germany's

AMUSEMENTS TO-DAY

The Criterion—Belmont House.

starving population was enjoined into believing every German "offensive" was a thrust resulting in huge garnering of prisoners, booty and materials of war. But "The Heart of Humanity," in which Dorothy Phillips is featured, gives to the world the true story of Teutonic machinations and duplicity practised through the camera. "The Heart of Humanity" will be shown at the Columbia Theatre again to-day.

VARIETY

The play that held thousands of spectators at every performance for over a year at Drury Lane Theatre, London, the home of spectacles and mammoth productions, has been picture-ized and is showing to-day at the Variety. This same play created a sensation on Broadway about twenty years ago. But best of all is the picture-ization in which all of the racing atmosphere has been maintained. Beautiful manors, archery fields, training quarters, luxurious interiors and picturesque drives furnish the background for a thrilling story which keeps the interest at fever heat until the end of the great race scene around which the plot is woven. Alice Joyce, whose recent triumphs have placed her on a high pedestal, outshines herself in "The Sporting Duchess." She is every inch a duchess. Her every move commands respect and adds dignity to dramatic situations.

ROMANO

An interesting incident took place during the filming of "The Misleading Widow," the Paramount-Artcraft picture in which Billie Burke appears at the Romano Theatre this week, which shows why the charming star is so popular with men in uniform. On the day that Director John S. Robertson made arrangements on behalf of Miss Burke for fifty wounded doughboys from the Greenbush Hospital, New York, to come and watch the star make exteriors for the picture, it unfortunately rained, so that no screening could be done. Miss Burke insisted on a party for the boys just the same. She had luncheon reservations made for all fifty at the Plaza Grill and appeared there in person when the meal was under way with tickets for all for a matinee. The soldiers cheered the dainty comedienne to the echo and were still singing her praises when the automobiles carrying them to the show drew up in front of the theatre. "The Misleading Widow," a delightful love romance, is another reason for Miss Burke's intense popularity.

COMING ON MONDAY.

Speaking of ambition, Kitty Kelly, a shapely young lady who adds considerable lustre to the ensemble in "Frivolities of 1920," the nimble limed revue which will be the hilarious inhabitant of the Royal Victoria Theatre, Sept. 20 and 21, has more than her share. She wishes to be a composite of Beatrix Clayton, Mary Garden and Pavlova. She realized she says that she will take a whirl at the movies and make Norma Talmadge look to her laurels.

GRAND OPERA SEPT. 25.

To take such a big company as the Scotti Grand Opera Company on a trans-continental tour entails difficulties which no other organization has to encounter. The tour is only made possible by the ability of the management to secure large auditoriums with adequate seating capacities, as the expenses are enormous. There are many large auditoriums in the country, but few of them are equipped to play opera. To obviate this difficulty Mr. Scotti carries a special equipment of lighting effects from foots to borders and switchboards, a velvet drop curtain and stage rigging especially designed to be erected quickly in large auditoriums which have no stage facilities. The Scotti Grand Opera Company, artists and chorus from the Metropolitan Opera Company will appear at the Royal Victoria Theatre, one night only, Saturday, Sept. 25.

"DANDERINE"

Stops Hair Coming Out;
Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff. Besides every hair shows new life, vigor, brightness, more color and thickness.

"ROBIN HOOD" SCORES INSTANT SUCCESS

Magnificent Production at
Royal Victoria Theatre;
Clever Artists

An enthusiastic audience at the Royal Victoria Theatre last evening was transported to the Merrie England of the twelfth century—the days of picturesque and gallant outlaws, jolly friars and lovely village maidens—when Ralph Dunbar presented De Koven's delightful comic opera, "Robin Hood." The production is on a scale of magnificence seldom seen in touring companies, with strikingly beautiful scenic effects, particularly in the second act, where a glen in Sherwood Forest forms the setting for the action. The costumes, too, are elaborate, of rich materials and colorings, adding much to the spectacular value of the production, and making it one of the most magnificent seen in this city for many years.

With such a setting, it naturally follows that the musical value of the production is commensurate with its attraction as a spectacle. "Robin Hood" is one of the most tuneful of the modern operas, strikingly reminiscent in its lyrics of Gilbert and Sullivan. The music last evening went with a fine swing from start to finish, with none of the dragging which too often mars the production of musical plays. "Robin Hood" was played by Albert Parr, whose fine robust tenor was heard to advantage in the part of the picturesque outlaw. Elsie Thiede made a charming Maid Marian, scoring an instant success with her soprano of crystalline purity and wide range. In the solo in the second act, sung with a flute obbligato, her voice followed the notes of the instrument with bird-like sweetness. Clarity of enunciation and clever acting made her performance one of the outstanding features of the production.

As Alan-a-Dale, Betty Baxter found opportunity for the display of her pleasing contralto, one of her most popular numbers being that perennial favorite "O Promise Me," sung with fine feeling. Miss Mary Baker was a coquettish Annabelle, and Madeline Hartford made the most of the role of Dame Durdle.

The comedy end fell to Tom Burton, whose antics as the Sheriff of Nottingham—the of the colossal mind and eagle eye—convulsed the audience. Mr. Burton is a born comedian and the possessor of a fine baritone, heard perhaps at its best in the Tinker's chorus in the commencement of the second act. He was splendidly supported by Rudolph Koch as Sir Guy of Gisborne, his henchman and dupe. Duane Nelson gave a convincing study of the role of Will Scarlett and his singing of the blacksmith's song earned a well-deserved double encore. To a particularly rich bass voice of pleasing timbre he adds delightfully clear enunciation and attractive personality. Harry Longstreet gave a fine performance of Little John, his singing of the famous drinking song, "Brown October Ale," bringing down the house, while William White made a jovial Friar Tuck, adding much to the comedy element.

An especial word of praise must be given to the chorus whose work was far above the average, with distinct articulation and an animation which contributed much to the verve of the production. Altogether "Robin Hood" is one of the finest productions ever seen in Victoria and theatre-goers should not fail to see to-night's final performance.

OVER 28,531 VOTERS

New Provincial Lists For Greater
Victoria Finally Closed By
Registrar Mabon

There are now 18,994 voters in Victoria on the new Provincial list.

RIGA WATER
RELIEVES
HABITUAL CONSTIPATION

which was finally closed last evening by the Court of Revision, presided over by George H. Mabon, Registrar.

Equivalents has a total of 2,937.
In Saanich there are between 6,500 and 6,700.

This gives a total of more than 28,531 voters for Greater Victoria.

WANT LIFE INSURANCE

Appeal Sent to Ottawa For More
Forms For Protection For
Returned Men

So many returned soldiers here want life insurance under the Returned Soldiers' Insurance Act, that the Hon. S. F. Toimie, who is now in Victoria, has had to wire Ottawa to rush more application forms here. H. J. Young, of the Army and Navy Veterans, has been distributing the forms here.

Any soldiers can take the insurance up to \$5,000 without medical examination. The insurance cannot be assigned and is not subject to creditors' claims.

Insurance is issued on ten, fifteen and twenty-year payment plan and on premiums payable during life.

The rates per \$1,000 of insurance are:

Age.	Life.	10 yrs.	15 yrs.	20 yrs.
25	\$1.25	\$2.86	\$2.10	\$1.76
35	1.70	3.55	2.56	2.26
45	2.48	4.64	3.52	3.00
55	3.90	6.16	4.82	4.26

CHURCH TAX EXEMPTION

Court of Appeal Has Judgment on
Famous Case of St. Andrew's
Catholic Cathedral Here

The Court of Appeal to-morrow morning will hand down its judgment deciding whether St. Andrew's Roman Catholic Cathedral property at View and Blanshard Streets is exempt from taxation. Taxes on the property have not been paid.

City Treasurer Smith is waiting to sell the cathedral property at tax sale if the Court finds the property not exempt and the taxes are not paid.

Other judgments to be handed down to-morrow are:
Lochead v. British Columbia Electric Railway.
Eastern Townships Bank v. McLennan.
Hamilton v. Ferne.
Mitsui v. Brown.
Laird v. Laird.

UNITY CENTRE

Rev. Agnes Jackson, Gler, D. & B. recently of New York, will give an inspiring course of lectures on September 12 to 18 inclusive.

TO OUR GAS PATRONS

We much regret that, owing to circumstances beyond our control, the pressure of the domestic gas supply has been such as to cause inconvenience to those who depend upon this fuel for cooking and other purposes

Increased Pressure for To-day

The situation, from a gas manufacturing point of view, is steadily improving and, beginning with this morning normal pressure will be given between the hours of

7 and 9 a.m., 11 and 1 p.m., 5 and 7 p.m.

these being the hours when the demand made upon the supply for domestic purposes is the greatest.

It is confidently expected to have normal pressure restored throughout the day in the very near future.

The "different" Food!

Benger's Food differs from all others because it contains the means to partially digest the fresh new milk with which it is prepared.

This means much, as the inability to digest milk—and only by proper digestion is its nourishment obtained—is very common. Always use

for backward Infants, Invalids, and Aged persons because even the weakest among these obtain the full benefit of the milk, and all enjoy and thrive upon it.

Benger's Food is entirely British in origin, ownership, and manufacture.

It is sold in sealed tins by all Stores, Grocers, etc. Carefully follow the directions on the tin when preparing it.

Wholesale and full particulars sent free from: BENGERS FOOD LTD., MANCHESTER, England.

or from the Wholesale Agents in Canada: The NATIONAL DRUG & CHEMICAL Co. of Canada, Ltd., MONTREAL, or any of their Branches.

SAYS SOME FIRMS WANT WHISKEY TO KEEP MEN DOCTILE

Methodist Social Service Field Secretary Here To Aid Prohibition

SAYS DRUG TRAFFIC IS BEING CONQUERED

Canada is now mastering the drug traffic, according to the Rev. Ernest Thomas, of Toronto, field secretary of Evangelism and Social Service of the Methodist Church of Canada, who is in Victoria to-day. He charges that some employers in British Columbia want whiskey brought back because it renders the workers more docile.

Rev. Mr. Thomas is here in connection with the prohibition plebiscite that is to be voted on on October 20. He will be here for three weeks planning the educational campaign.

"Employers in the East are for prohibition because the efficiency of the workmen is increased," said Rev. Mr. Thomas.

"But in some parts of British Columbia we are finding a different attitude. We find that some mining corporations are opposed to prohibition while many of the labor leaders are for it."

Sooted Workers Remain Docile. "The reason for this is that when workers become sootied they are more easily handled and lose interest in the improvement of their economic conditions. They are more easily handled. They lose their assertiveness. They become more stupid. With liquor out of the way the workmen begin to think. He is not so easily 'contented'."

New Drug Act Effective. Drug-using is rapidly decreasing in Canada, Rev. Mr. Thomas reports. "In 1914 the consumption of narcotics in the United States was twelve times greater than the per capita consumption of any country of Europe and fifty times greater than the consumption in some," he said.

"But in 1914 the United States passed a drastic law closing the sea-ports to the traffic. The traffic then came through Canada and many of the drug addicts came over here. Seventy per cent. of the arrests of drug traffickers in British Columbia have been aliens."

"There is no connection between prohibition and drugs. In New York, Philadelphia and Chicago the wards for drug addicts have been practically closed recently, with the country under prohibition."

Arresting Traffickers. "In Canada arrests of drug traffickers are increasing. This, according to Chief MacRae, of Vancouver, is because the police are going out after them more actively."

"At Ottawa there has been established the Federal Bureau of Public Health under Dr. Amyot, formerly of the University of Toronto, with Dr. Helen MacMurchy in charge of the child welfare work. The inauguration of this bureau, along the lines of the Public Health Bureau at Washington, opens a new chapter in the health life of Canada."

This Federal bureau at Ottawa has just given out information which reveals that since the coming into force of the new Drug Act, with its restrictions, the use of narcotic drugs in Canada has been reduced more than 50 per cent.

Montreal Handles Most "Montreal imports more than 90 per cent. of the quantity used in Canada, and most of the remaining 10 per cent. was imported by dealers in Quebec. While it is true that Montreal holds a quantity altogether out of proportion to its needs, and Montreal is in the one remaining 'wet' Province of Canada. It is known that in that city is the headquarters of the illicit distribution of drugs and that a large percentage is smuggled into the United States. That this practice is profitable to the people engaged in the illicit trade is shown by the fact that morphine valued in Montreal at \$12 per ounce is sold in Chicago at \$60. A great deal is taken to Windsor and smuggled across the line there, but many instances are being brought to light of railway porters taking a few ounces at a time into the United States from Montreal."

"Very shortly, it is stated, the department will have the whole thing well in hand, and would be able to trace where every ounce of cocaine went to. It is becoming increasingly hard for the illicit dealer, and very shortly the drug evil in Canada will be practically eliminated."

Not Increased by Prohibition Mr. Gaylord, the Assistant Prohibition Commissioner for the United States, who has special charge of the control of the drug traffic, is reported in The Christian Science Monitor of January 5, as saying that control of the traffic in narcotic drugs in the United States is being gained gradually, but there is still an immense amount of work to do, and additional legislation will be asked of Congress.

"He is emphatically of the opinion that prohibition of the liquor traffic has not been accompanied by an increase in the use of narcotic drugs, when the whole nation is surveyed. In some localities an increase has been noted, and in others a decrease, but the average consumption of narcotic drugs has not been affected, he thinks, by the cutting off of alcohol stimulants. If Congress will prohibit the exporting or importing of such drugs, Mr. Gaylord said, and if domestic manufacturers are placed under a license system similar to the system for manufacturers of intoxicants under the Volstead prohibition enactment, law the traffic would virtually cease. The reason for prohibiting exports, he claimed, is to reduce the amount of drugs which can be smuggled back into the United States."

Control of Opium "Dangerous Drugs" is the title of a bill just introduced by the House Secretary, the Engineer, its object is to give effect to the International

Opium Convention signed at The Hague in 1912. By the Treaty of Versailles Great Britain bound itself to bring The Hague Convention into force within a year from the coming into force of the treaty. The bill prohibits the importation into, or exportation from, the United Kingdom of raw opium except under license. Manufacture, selling or using prepared opium, and importation or export thereof are such as to be prohibited under license, morphine, cocaine, heroin and their respective salts can neither be imported nor exported or manufactured and sold except under regulations.

WOULD BUILD HIGH SCHOOL IN SAANICH

Chairman P. C. Coates Suggests Plan to Secure Support to School Bylaw

The impossibility of providing accommodation at Tillicum school for the children residing in the vicinity, unless extensive additions are made or temporary rooms are arranged for, took up much of the time of last night's session of the Saanich School Board.

A report from the buildings and grounds committee was submitted in which it was recommended that two extra rooms be constructed in the basement. At once Trustee Dignon made emphatic protest. "Never with my consent will such a makeshift be adopted," he said. "Tillicum school would be one of the finest in the district if properly enlarged by by-law. I don't want to see it spoiled; the people of that district have a right to a good school, it has always been promised them."

Must Widely Appeal.

Chairman Coates said that any by-law scheme to gain successful passage by the ratepayers must be based on appeal to the outer as well as the inner wards and must benefit both rural and urban sections. "I consider that the proper and consistent way to build a high school somewhere near Royal Oak, where the former section of the community would be benefited," he said. "The Coates' claim that he was considering the interests of Saanich as a whole, rather than any individual district, and felt that the rural wards would realize that the provision of a first-class consolidated school for their children would be a great asset to the community, bringing many new settlers and increasing land values."

Would Change System.

Trustee Holloway thought the Chairman was looking too many years in advance. "At the present time the Board requires a huge sum to put the schools we already have into proper shape," he said. "We could spend \$100,000 on betterments and extensions in the present schools, most of it in the inner wards, and that money will have to be raised some time, and it is not right that the parts of the community which would not benefit should have to pay the money. There must be a change in the system," he claimed.

Suggests Church Building.

Trustee Dignon brought the discussion back to the Tillicum School with a suggestion that the Millgrove Street Church be obtained until a definite policy as to the school is decided upon. He said that there are a large number of young children awaiting tuition, Principal O'Neill having, by his instructions, sent them home until quarters were available.

A somewhat warm discussion took place as to the merits of sending pupils residing near the Tillicum School to the Craigflower School. Trustee Dignon claiming that the withdrawal of older pupils would only make the senior classes smaller without affecting the pressure on the junior classes. He pointed out that, in addition to the children who last session were being taught in the hallway class now abandoned, there are over a score of new children waiting accommodation. Chairman Coates considered that the unused room at Craigflower should be put into service, even though the pupils to fill it had to come from a distance.

Trustee Holloway suggested that a by-law for \$10,000 for an addition should be submitted to the ratepayers at the annual election, and asked what would happen if the electors turned it down. Trustee Dignon snapped "Close the school," and Chairman Coates agreed.

Special Meeting Arranged.

Finally the Board decided to hold a special meeting next Tuesday, at which Principal O'Neill will be asked to make a detailed report as to where the congestion is greatest and the effect removal of senior pupils would have, through promotion from the lower grades. At the same time the Board will consider the utilization of one of the main hallways as a classroom and Trustee Dignon will report on the availability of the Millgrove Street Church.

Cuticura Will Help Clear Pimples & Dandruff

The Soap to Cleanse The Ointment to Heal
